GEN. FUNSTON HAS BEEN AUTHORIZED BY THE WAR DEPARTMENT TO EXTEND LINES AND FORTIFY

Move Will Give Him a Free Hand in Dealing With Federals in Vera Cruz Region—Reports He Has No Information Concerning Movements of Mexican Troops.

HUERTA SOLDIERS TEARING UP RAILWAY TO KEEP YANKEES OUT OF MEXICO CITY

Mediators Arranging to Hold Sessions on Canadian Soil and Open Negotiations for Quarters at Niagara Falls—Consul Bonney and Wife Safe at Last.

By Associated Press.

Washington, D. C., May 6.—Orders have gone from the War Department to General Funston, it was learned today, authorizing him to extend his lines about Vera Cruz as far as "in his judgment it is necessary." This, it was explained, gives the American commander virtually a free hand in dealing with the situation at Vera Cruz, and it was said that the American lines would at once be extended and heavy fortifications thrown up.

TEAR UP RAILWAY

By Associated Press.

Washington, D. C., May 6.—General Funston, at Vera Cruz, reported to the War Department that he had no definite information regarding movements of the Mexican troops and said he thought it probable that concentration of such Mexican troops was made for the purpose of defending the lines of railroad to Mexico City in case the United States troops should advance.

Mexican natives reported that the track of the Inter-Oceanic Railroad was being torn up.

RUMOR SAYS VILLA WILL BURN TAMPICO

By Associated Press.

Washington, D. C., May 6.—Admiral Badger reported to the Navy Department that Constitutionalist forces made a sharp attack yesterday upon Mexican Federal troops in the northwest portion of the province of Vera Cruz and to the west of Tampico. There was no decisive results as far as he could learn, the report said.

Admiral Badger's report further said that Admiral Mayo informed him of persistent rumors current about Tampico that General Villa was on his way with reinforcements for the Constitutionalists and intended to "take and burn the city."

Admiral Mayo stated that he did not put the slightest faith in the truce supposed to have been arranged between the Constitutionalists and Federals at Tampico. There had been no trouble recently in the oil well district, he added.

MEDIATORS TO MEET IN CANADA

By Associated Press.

Washington, D. C., May 6.—The South American mediators who are seeking an adjustment of the Mexican trouble, were perfecting plans today for the removal of the conference to Niagara Falls, Canada, on May 18th. Telegrams were sent to a leading hotel there now closed, asking if it's opening would be advanced so as to accommodate them. If this is arranged, headquarters will be established there, otherwise at another hotel or private cottage for which negotiations are under way. The mediators will leave on Thursday, May 14th to arrange preliminary matters for the session on the Monday following. The party includes secretaries, stenographers and other officials and will number about 15, not including the United States and Huerta delegates, or those of Carranza, should he finally come into the deliberations. The envoys continued their sessions today, expecting to advance on various branches of the work pending the opening of the conference at Niagara Falls.

BONNEY IS SAFE

By Associated Press.

Washington, D. C., May 6.—The Brazilian minister in Mexico City informed the State Department today that American Consul Bonney, reported under arrest in San Luis Potosi, had arrived in Mexico City with Mrs. Bonney. Both were safe and well.

The Minister added that the last accounts indicated all Americans in San Luis Potosi were safe.

HERRICK DECLINES

By Associated Press

Cleveland, Ohio, May 6.—In response to a cablegram sent to him in the name of a friend urging him to become a candidate for United States Senator from Ohio, Ambassador Myron T. Herrick cabled from Paris to his son, Parmeley H. Herrick, here today, saying he would under no circumstances enter the race.

BRITTISH DEMAND

By Associated Press.

Port Au Prince, Haiti, May 6.—The British diplomatic representative at Port Au Prince today delivered an ultimatum to the Haitian government demanding the immediate payment of an indemnity of $62,000 to a British subject in compensation for the destruction by fire of his sawmill during the Leconte revolution. The ultimatum expires at 6 o'clock this evening.

VIEW OF LUDLOW, COLO., AFTER FIRE SWEPT MINERS' HOMES; STRIKERS ACCUSE GUARDSMEN

Trinidad, Colo., May 5.—Conditions in the strike zone have been growing even more critical. The coal miners accuse the soldiers of cruelty. Dr. Asa Harvey of Aguilar, physician for the union there, states that after the fire in the tent colony at Ludlow had virtually subsided and while the women and children lay in the "safety" pits the militiamen applied torches to the tents after pouring kerosene on them. The physician told the coroner's jury that he and Frank Bayes, a ranchman, witnessed this deed. The ranch house, in which many of the women and children refugees from the colony sought shelter, he testified, was under the troops' fire during the major part of the day. He exhibited a bullet which had smashed through a window casing and landed, spent, on the floors of one of the rooms, in a corner of which women and children were huddled.

TO PASS ANTI-TRUST LAWS AND ADJOURN

By Associated Press.

Washington, D. C., May 6.—Probable adjournment of Congress by July 10th was predicted by Senator Kern, Democratic leader of the Senate, after a White House conference at which the President, Senators Kern, Hoke, Smith and O'Gorman discussed the legislative program.

Senator Kern said he believed the Panama Canal Tolls Repeal Bill would be disposed of within two weeks, and that the administration anti-trust program would be completed before adjournment. He said he was hopeful the Rural Credits Bill would be reported. "We are not going to stay here all summer, you may be sure of that," said Kern.

STUDENT FALLS FROM FLAG POLE

By Associated Press.

Ada, Ohio, May 6.—Walter Bradley, of Rochester, N. Y., a student at the Ohio Northern university, while attempting to nail a class flag on the top of a tall pole today, fell 70 feet. He is unconscious and probably will die.

DENIES NEW TRIAL FOR LEO M. FRANK

By Associated Press.

Atlanta, Ga., May 6.—Judge Ben H. Hill, of the Fulton County Superior court, today denied the extraordinary motion for a new trial for Leo M. Frank, the young factory superintendent under sentence of death here for the murder in April of last year of Mary Phagan, a factory girl.

In denying the motion Judge Hill announced that he would sign a bill of exceptions, thus allowing the ruling to be appealed to the State Superior court.

REBELS ENTRAIN FOR BIG BATTLE

By Associated Press.

Torreon, Mexico, May 6.—A detachment of Villa's troops stationed here, entrained today for Monterey, which will be the base of operations in the Rebel attack against San Luis Potosi and Saltillo.

The troops which left here will detrain at Hipolito, and from thence will march overland to Monterey.

MEDIATION DRAGGING; MEXICO IS THREATENED

Carranza Out, But Can Get In—U. S. Has Not Named Delegates and Is Saying Nothing—Huerta Losing Hold on Capital, and Zapata Threatens to Beat Villa to Slaughter.

By Associated Press.

Washington, D. C., May 6.—Mediation in the Mexican crisis will proceed without the representation from the Constitutionalist forces in the revolution-torn Republic. This definite announcement was made today by one of the South American envoys after the mediators had conferred at the State Department with Secretary Bryan.

That Carranza might change his mind and eventually come into the mediation conference, which now will proceed on Canadian soil, of the differences between the U. S. and the Huerta government, was considered doubtful by the diplomats. "Carranza is a strong man, and not likely to readily change his mind like a woman", was the characterization of the Constitutionalist chieftian by one of the envoys.

Relating to their conference with Secretary Bryan, the mediators had nothing further to say, but Mr. Bryan reiterated his statement that this government had not yet outlined any basis upon which it would mediate, and that thus far it merely had accepted the good offices of the South American envoys. When the United States would name the delegates to advise with the mediators was not known.

Persistent reports from Tampico of the preparations for a decisive conflict between Constitutionalist and Federal forces attracted attention of American officers here and at Vera Cruz, and reports continued to pour in from Mexico City from many sources that Huerta's position is growing worse. In diplomatic circles dispatches have been received stating that fear of an attack on Mexico City by General Zapata's forces causes considerable alarm. Huerta's hold upon his soldiers, dispatches say, is weakening, and possible opposition to the Zapata movement, it is declared, is weakening. Zapata has said he would get to Mexico City before Villa.

ROBINSON KILLS GIRL AND SELF

By Associated Press

Middleport, Ohio, May 6.—Lloyd Robinson, 30, shot and killed his sweetheart, Olga Landis, 22, in the parlor of a hotel here last midnight and then turned the revolver on himself and sent a bullet through his brain.

Robinson's home was at Boone, N. C. Jealousy is said to have caused the shooting.

TROOPS ON BORDER

Photo From Nuevo Laredo Shows Arrival of Fresh Men.

© 1914, by American Press Association.

These are the most recent war pictures from the border. They were taken at Nuevo Laredo and show the ruins of a building after it had been burned by Mexican troops. The other picture shows United States soldiers on the run, following rumors of disorder on the border line by Mexicans.

AWFUL FATE OF A WOMAN

By Associated Press.

New York, May 6.—Mrs. Mary Louise Etchageray, 29, wife of Louis Etchageray, Mexican Minister to Costa Rica, fell from a window of the fifth floor of an apartment house today and was impanelled on a picket fence in front of the building. She was rushed to a hospital, where she died. Her husband is now in Costa Rica.

OIL INTERESTS CONFER WITH SEC'Y BRYAN

Washington, D. C., May 6.—A large delegation from New York representing American oil interests at Tampico asked Secretary Bryan today of the steps that had been taken to protect the oil property in the Tampico oil district, and urged Mr. Bryan to take immediate steps to safeguard one property thought to be in greater jeopardy than the others. None of the delegation would discuss the nature of the conference and Secretary Bryan would not disclose the name of the property for which special protection was sought.

FINLEY ASSUMES WHOLE BURDEN

Pleads Guilty to Technical Violation of Civil Service Law.

FINED FIFTY AND THE COSTS

Indictments Against Three State Officials Nolled On Prosecutor Turner's Recommendation—Democratic State Chairman Assails Turner, Who In Turn Attacks the Civil Service Act.

Columbus, O., May 6. — Declaring himself innocent of any charges of moral turpitude, William L. Finley, chairman of the Democratic state committee, admitted in common pleas court a technical violation of the state civil service law in soliciting contributions to the Democratic press bureau fund.

Prosecutor Turner, in a statement to the court, declared the violation not to have been a wilful one, but done through ignorance of the law, and recommended the minimum penalty of $50 and costs, which was assessed by Judge Rathmell.

All other indictments against Mr. Finley, together with those against State Superintendent of Banks Emery Lattanner, M. A. Goller, chief clerk in the state banking department, and A. V. Abernathy, secretary of the state tax commission, were nolled on Mr. Turner's recommendation. They never will be tried. Mr. Finley promptly paid his fine to the clerk of courts. Thus the civil service cases are closed.

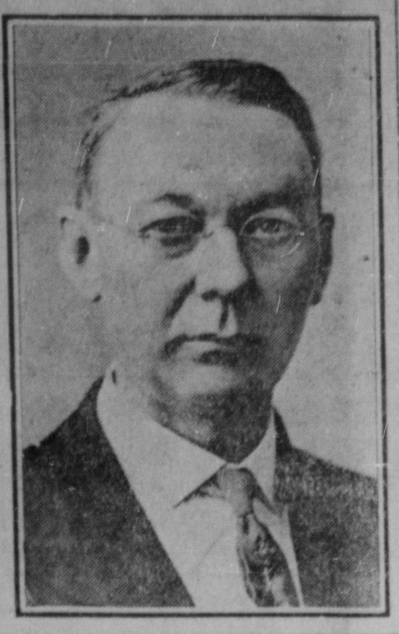

In his statement to the court, Mr. Finley declared he was not familiar with the provisions of the civil service law and also said attorneys differ greatly as to its interpretation. He called attention to the fact that none of the acts complained of had been regarded as wrong, either legally or morally, in the past. He said the proceeds collected had been used by the press bureau to disseminate, both to Republican and Democratic newspapers, issues before the legislature and the laws which were enacted, together with their application.

Prosecutor Turner scored the civil service law, though he declared that as an official he believed it should be enforced upon all alike. He declared it to be revolutionary, so far as past practices in partisan politics are concerned, and branded it the work of "faddists," who had been more intent upon protecting themselves than others. He called attention to weak places in the law, but contended that the phrase under which the indictments were drawn, "or be in any manner concerned in," was broad enough to cover all eliminations that had been made in attempting to redraft the federal statute. "I feel satisfied that while the law was ignorantly violated, it was not an intentional or willful violation," Mr. Turner said.

In Mr. Finley's statement to the court he charged Mr. Turner with bad faith, with playing politics. His alleged humbuggery and insincerity were shown up, Mr. Finley said. He continued: "His bad faith in the whole thing is shown by his willingness to nolle indictments against public officials in order to fasten a plea of guilt on a technicality against me. That he brought the names of three public officers into disrepute and subjected their families to heartaches and worries for the purpose, as is now apparent, of making those indictments trading stock against me, is to be expected from him. He gloats on blood. A taste of mine may temporarily satisfy a perverted taste."

LOCATING FIRST DEFINITE BOUNDARY LINE IN ALASKA

Corps of Engineers Cut Way Through Mountains for 600 Miles in Establishing the First Definite Boundry Line Between Alaska and Canada —Natives Never Saw a Horse— Sun Shines for 24 Hours Each Day.

By Associated Press.

Sitka, Alaska, May 6.—Scarring a broad line across 600 miles of wilderness in the far North, in order that the possessions of the United States and Canada may have a distinct separation at every point, will be completed during the coming open season. The work has been in progress since 1907 under the direction of Thomas Riggs, Jr., civil engineer, representing the United States Alaskan Boundry Commission, and T. D. Craig, representing a similar commission of Canada.

Although the United States and Canada have been neighbors in the far North for over a half century, the exact dividing line between their possessions, especially, as to the northern portion, was, previous to this survey, indefinite and conflicting. Many disputes arising, the two governments decided, finally, through their commissions, that an absolute survey, clearly established and marked for all time, should be made along the one hundred and forty-first meridian, from the Mt. St. Elias Alps, on the Pacific Ocean to the Arctic Ocean, a distance of approxiamtely 800 miles.

The United States surveying party consisted of from 60 to 80 men each season since the work was undertaken Chief Engineer Riggs, himself a young college man, selected his aids from the hardiest classes—cowboys, forest rangers, prospectors, timber cruisers and frontiersmen, with a liberal sprinkling of engineers. New expeditions were organized each spring, although many of the men who started at the beginning have remained in the service up to the present time. It was the custom, too, to leave a few men in the north each winter to care for equipment and supplies.

The actual visible results of the six or seven years of efforts, a 20-foot vista cut, like a gigantic avenue, or lane, through all timber and brush districts, together with monuments set at intervisible points, from three to four miles apart.

The monuments erected are of two types, depending upon the importance of the locality. At prominent stream crossings and main points of travel the line-marker consists of a 5-foot aluminum-bronze shaft, weighing 300 pounds, set in 2,000 pounds of concrete. At less important points the monument is smaller, being designated as a cone, cast of the same metal, and requiring only 1500 pounds of concrete for the base. There are approximately 200 of these monuments along the 600 miles of boundary. The work of conveying the heavy materials for their construction, mostly on pack-animals, sometimes on the shoulders of the men themselves, was very slow and laborious.

This survey is declared by engineers to be the straightest of the world for the length encompassed. In speaking of it, one of the engineers said:

"The start was made from one of the desolate peaks of the Mt. St. Elias Alps, on the southern extremity. There we laid our course straight for the Northern Lights and thereafter swerved not so much as a hair-breadth—peaks, gulches, bottomless swamps—where ever the needle pointed there we went, one day cutting our way through brush-tangles, the next building a track across marshes, or crawling over rocks and through crevases."

Small steamers, plying the Yukon and Porcupine Rivers, co-operated with the expedition, but they were able to reach with supplies only a small portion of the actual route. South of the Yukon is a vast region, over 250 miles in extent, over which all supplies had to be transported, for the most part, on the backs of horses and mules, the commissary wagons being rendered useless by the terrible mud which follows the escape of frost from the soil in that region.

As might be expected, the greatest difficulties were encountered beyond the Arctic Circle. Following the rough scaling of the southern portion of the survey, the joint expeditions established their base at Rampart House, an ancient Hudson Bay station, on the Porcupine, from whence several dashes were made before the Arctic Ocean was finally reached.

When the steamers landed the topographers and their equipment at Rampart House, the native Indians were amazed at the drove of what they first took to be huge dogs, but later decided must be a variety of horneless caribou. Inquiry developed the fact that they had never before seen nor heard of the horse.

Almost at the water-line of the Arctic Ocean one of the larger of the mounments stands today, marking the international division. The final lap required to place it there was over a region fairly bristling with natural difficulties, although only about 100 miles across. The course led over the treacherous lakes and swamps of the Old Crow country, over the Ammerman Mountains, the Davidson and British ranges, thence down the long slope to the coast. On this dash, wild animals raided the caches and menaced the surveyors; ravenous mosquitoes settled upon them in boards, day and night; phantom lakes, mountains and cities lured and confused them, and over all blazed the summer sun of the Arctics, 24 hours each day.

ENJOIN STRIKERS

Canton, O., May 6.—All the deputy sheriffs of Stark county were worked overtime serving injunction notices. Action brought by the McLain company and the Novelty Iron company against the molders' union and members to restrain them from acts of violence in prosecuting a strike at the plants resulted in a temporary injunction order of the court which prevents strikers from intimidating present employes.

SEAMAN LOST

Washington, May 6.—Admiral Badger reports that Frank C. Negedley, ordinary seaman on the Cassin, was lost at sea. His body has not been recovered.

VILLA DEFI

Torreon, Mexico, May 6.—A broad defiance of General Huerta and all his federal armies in Mexico was made public by General Villa in reply to proposals from General Joaquin Maas, federal commander at Saltillo, that the federals and rebels unite to avenge Mexico for the American occupation of Vera Cruz. Villa not only declined, but displayed his hatred of federal supporters, including General Maas, in plain terms. He declared Huerta and his advisers had invited disaster and were about to reap ruin.

VELASCO DESERTS FEDERAL CAUSE

Torreon, Mexico, May 6.—General Refugio Velasco wishes to join Villa's army, and offers to bring the 1,200 men from the Saltillo garrison to the rebel army if his request is granted. Velasco, according to a statement made at rebel headquarters, has notified Huerta that he no longer will support him, since the Huerta government refused to render any aid to Velasco's army during the battle of Torreon or since that battle. Negotiations are under way, it is said, which will result in Villa's combining the forces of Velasco with his own.

TELLS WHY LAW WORKS HARDSHIPS

By Associated Press

London, April 6—The recent discussion in England of the question of compelling professional women, particularly teachers and doctors, to give up their positions after marriage, has brought a remarkable statement from Dr. Marie C. Stopes, a well known scientist. There are, she says, three inevitable results from the policy of compelling women to give up their professions:

(1) It prevents admirable women of a certain type of character from marrying at all.

(2) It deprives the community of the work and the experience of another type of woman, who does not feel able to sacrifice her private life to her career.

(3) It leads other women, of more perfect balance, who demand the right to be both normal women as well as intelligent, to (a) wilfully and "dishonestly" concealing the fact of their marriage from their employers; or (b) living in union with a man without the legal tie of marriage.

As to the last alternative Dr. Stopes says: "My own experience of three years of marriage, in which I have discovered the innumerable coercions, restrictions, legal injustices and encroachments on her liberty imposed on a married woman by the community or sections of it, has brought me to the point of being ready to condone in any of my educated women friends a life lived (if in serious and binding union) with a man to whom she is not legally married. Three years ago such a course would have filled me with horror."

Only by treating married women properly, by leaving them the freedom of choice allowed to all other individuals, adds the writer, can innumerable evils be avoided.

DOG BITES FIVE

Akron, O., May 6.—A frenzied bull dog ran wild in the Perkins school, biting five children. The children bitten were: Alexander Walder, 8; Helen Baer, 6; Harding Christ, 10; Wendell Loomis, 9; Ralph Azor, 8.

Keep Boys Off the Streets

The heads of Washington families—the parents of young boys—should be more careful of the oft repeated admonition to keep the young boys at home after night.

This city, free of saloons and open dens of vice and iniquity is not nearly so dangerous a place for boys to roam the streets as many other places.

Indeed, it is doubtful if a safer place, large or small, could be found where boys would be less subjected to the temptations of the baser sort.

But that fact does not remove the responsibility which parents have, and should always be mindful of in the care of their sons.

Even if there are no open places from which, attractively garbed and, to the inexperienced, successfully disguised, vice alluringly beckons to the idle wanderer on the street, there is still the danger that the growing boy will form indolent loafing habits and listen to much of the unwholesome gossip, twisting and dwarfing his viewpoint to an extent which will make a successful life in after years impossible.

The growing boy should be occupied mentally and physically every moment of his waking hours. When not at work or study he should be at wholesome amusement, developing muscle and mind and storing up a reserve force to call upon in after years.

Hour after hour idled away in the evening, doing absolutely nothing, for either mind or body, makes of the growing boys, nuisances to those who have business on the streets and is the most certain way to result in a life of disappointment, if not worse, in after years.

Doing nothing is the easiest thing in the world for a growing boy to learn. The mind and the body of the growing boy are developing in capacity at a rate not fully appreciated by some older folks evidently, and it is the duty of some one—the parents first— to keep the mind and body exercised to their full capacity.

This city furnishes an abundance of opportunity for amusement to the boy. He can enjoy himself without being idle and without becoming a drifter and a street loafer.

It is almost criminal negligence for parents to allow their growing boys to seek amusement on the streets of the world outside—the home is the place, and if not at home, the boy should be in some place to which the home folks have directed his steps.

The number of young boys who are nightly found loitering about the streets has been the subject of discussion for years and years and it is not surprising that the same old subject should be once more to the front.

But the fact that the subject is one that has been long discussed and one to which attention has long been directed does not relieve against the duty which will be ever present as long as folks have boys growing up.

The warning to keep the boys off the street and to keep them amused and instructed is always timely and should never be met with anything by parents save the most serious consideration and the firmest determination to do their whole duty.

Keep the boys off the streets at nights.

Japan Slandered In Order to Make Dockyards and Steel Industries Busy

By Dr. TOYOKICHI IYENAGA, Lecturer For University of Chicago

IF a war scare is needed for the gratification of newsmongers or for the passing through congress of navy bills so as to make the dockyards and steel industries busy Japan is every time utilized for the purpose.

She has been DRAGGED IN EVEN IN THE CONTROVERSY ABOUT THE PANAMA CANAL TOLLS. Indeed, to further its designs, yellow journalism has not hesitated to use every wit and talent at its command for slandering Japan, has attributed to her ambitions she never dreamed of, heaped false charges upon her merchant class and besmirched the fair name of her womankind.

UNCONSCIOUSLY INSTILLED INTO THE MINDS OF THE INNOCENT AND THE IGNORANT, THESE FALSEHOODS WOULD TEND TO SHAPE THEIR OPINION AND TO ALIENATE JAPAN FROM THEIR SYMPATHIES. HOW GREAT HAS BEEN THE EXTENT OF THE ALIENATION MIGHT SOMEWHAT BE GAUGED BY THE CHANGE THAT HAS COME UPON THE TONE OF PUBLIC OPINION FROM THE TIME OF THE RUSSO-JAPANESE WAR, WHEN JAPAN WAS OVERLOADED WITH PRAISE, TO THE TIME WHEN THE ALIEN LAND BILL WAS ENACTED IN THE FACE OF THE STRONGEST PROTESTS OF THE WASHINGTON GOVERNMENT.

IS IT NOT TIME FOR RIGHTEOUS AND STRONG ORGANIZATIONS TO ASSERT AND EXERT THEMSELVES FOR CREATING A SOUNDER PUBLIC OPINION?

Poetry For Today

DELIGHTS OF TRAVEL.

Weary, o'er ledger and journal
Leaning throughout the day,
I dream of delights supernal
When I shall be up and away.
This evening the joys of travel
Most certainly I shall seek,
These certainly I shall have, all
On fifteen dollars a week!

Six days at Atlantic City
I think ought to be enough;
I'll then "go across"—what a pity
If the weather should turn out rough!
A fortnight I'll stay in London,
Then hurry to gay Paree;
Its sights all one by one done,
The rest of Europe I'll see.

Down the Riviera drifting,
Absorbing its vared joys,
My plans without protest shifting,
When any experiences cloys—
Ah, yes! I am growing bolder;
I'll essay a wilder flight;
By railroad and steamship folder
I'll go round the world tonight!

Wonders of Nature.

"Nature's works are marvelous."

"Yes. Isn't it fortunate that she provided every woman with some real hair to pin braids and switches to?"—Louisville Courier-Journal.

The Wrong Comparison.

"Your wife says you have about the courage of a mouse," said the disagreeable relative.

"I wonder that she should make the comparison," replied Mr. Meekton. "Henrietta is afraid of a mouse."—Washington Star.

Placing the Blame.

Ocean Voyager — Don't the passengers make you tired with the questions they ask?

Captain—Yes, very. What else is it you want to know?—Philadelphia Bulletin.

The Good Old Times.

"The political pie"—said the disappointed officeseeker sadly.

"Well, what about it?"

"It isn't anything like the kind our fathers used to make."—Washington Star.

Some System.

She—What a wonderful thing is nature! How grand! How comprehensive!

He—Yaas; even the smallest plant or the smallest insect has got a Latin name.—Texas Siftings.

Scattering the Dust.

"When old Richleigh died he left a request that his dust be scattered to the winds.'

"Well, his spendthrift son is attending to that all right."—Philadelphia Ledger.

GEN. AXLINE ILL

Zanesville, O., May 6.—Physicians at the bedside of General H. A. Axline, former commander of the Ohio G. A. R., announced that the veteran's condition is extremely critical.

Dr. John H. Axline of Lancaster, brother of the general, was stricken with paralysis on the steps of the Good Samaritan hospital as he was entering to visit his brother.

LEAVING BRAZIL

Para, Brazil, May 6. — Colonel Roosevelt and his son Kermit arrived here on the steamship Dunstan from Manaos. They will sail Thursday for New York by way of the Barbadoes. At the latter place the party will separate, the colonel proceeding to New York, while Kermit will take a steamer for Lisbon, and will afterwards proceed to Madrid, where he is to be married early in June to Miss Belle Willard, daughter of the American ambassador to Spain. Colonel Roosevelt will arrive in New York May 20.

BANDITS TAKEN

Douglas, Ariz., May 6.—Refugees from the El Tigre country in Sonora tell of the wounding and capture of four bandits, one of them an American, by a Mexican rancher, Pedro Lopez, at Chuchuta, Sonora. A band of robbers attacked the Lopez ranch and he gave battle single-handed. Lopez finally drove off the band with the exception of four who were wounded. These he took to El Tigre and turned them over to the authorities.

OFFICIAL SUCCUMBS

Newark, O., May 6.—Dr. J. M. Wright, 56, member of the Licking county liquor license board, died at his home here after a short illness. Dr. Wright was a Bull Mooser and his appointment as license commissioner aroused bitter opposition.

FOR DRUG VICTIMS

Columbus, O., May 6.—Governor Cox, speaking before the Ohio State Medical association, was loudly applauded when he advocated the establishment of a department by the state government for the care of victims of the drug habit.

HASKELL IS DEAD

Washington, May 6. — W. C. Haskell, superintendent of weights and measures of the District of Columbia, and former chief of engineers of the Ohio militia, died here, aged 68. For four years Mr. Haskell was United States marshal of northern Ohio.

EFFECTIVE WORK

London, May 6. — The losses paid by British insurance companies on account of suffraget fires in the past fear aggregate, $1,250,000.

MARRY AT LONG RANGE.

Woman In Holland and Man In Wisconsin Are Curiously Wed.

Superior, Wis. — Johannes Jacobus Kuyk, after a wedding ceremony preliminaries for which lasted several months, is a married man. His bride was Miss Maria Louise Grotendorst of Holland. They were married by mail.

The bride is expected to arrive from Holland June 13. Final papers uniting the couple have arrived from Holland. A number of officials took part in the ceremony.

When Mrs. Kuyk arrives she will be accompanied by Miss Nellie Rees of Holland, who is to become the bride of G. Kuyk of Grand Rapids, Minn., a brother of the Superior man.

Have Color in Your Cheeks

Be Better Looking—Take Olive Tablets.

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results. The Olive Tablet Company, Columbus, O. advt

HISTORY OF MARTHA WASHINGTON WILL

Morgan Tells How Document Came Into His Possession.

Washington.—The first authoritative explanation of the manner in which J. Pierpont Morgan came into possession of the Martha Washington will, to regain the custody of which the governor and citizens of Virginia have threatened legal measures, was given out by Mr. Morgan.

"The will of Martha Washington was taken from the Fairfax courthouse in 1862," Mr. Morgan said, "by a colonel of the Union army, who rescued it from destruction by his men. This officer retained it in his possession for thirty years and shortly before his death in 1892 gave it to his daughter who, thirteen years later, in 1905, sold it to the late J. Pierpont Morgan.

"This account she related at the time of the transfer. She stated that her father's regiment garrisoned Fairfax Court House in 1862 and that he had headquarters in the courthouse. Another command had previously occupied the place, and the men had broken open the safes. The floors were littered with papers which the colonel's men used in making fires. Entering headquarters one day he found his men shoveling papers into a stove. He stopped them, and in examining the papers found the Martha Washington will.

"He carefully preserved the document throughout his life, and on the eve of his death gave it to his daughter."

The correspondence shows that Mr. Morgan suggested to the governor of Virginia two plans for the preservation and exhibition of the Martha Washington will. One is that Mr. Morgan would present the will for public exhibition at Mount Vernon, the other is that the will be preserved by the congressional library at Washington. With both of these suggestions Mr. Morgan couples another, that George Washington's will, now Virginia's property, be exhibited with it.

HAS KEY TO ALL LANGUAGES.

French Teacher Invents System of International Correspondence.

Paris.—A teacher named J. Orsat has invented an ingenious system of international correspondence. Every word in the French language is referred to by a number, and a corresponding number is given to the same word in all other languages.

Thus a merchant desiring to write to a foreign customer need only turn the words of his own language into numbers, and the customer can retranslate the numbers into the words of his language. Dictionaries based on this system in all tongues are being prepared.

M. David, the minister of commerce, has given his approbation to the idea. M. Orsat does not believe in the practicability of a spoken universal language.

Playing a Sure Thing.

"You say your boy went to New York to be a speculator?" said the neighbor.

"Yes," replied the proud mother. "He may go broke."

"No. He isn't that kind of a speculator. He's a ticket speculator."—Washington Star.

An Ulterior Motive.

Willie (whispering)—Say, Jimmy, why don't you show the teacher your mumps so that he will let you go home?

Jimmy—No fear. I wants the whole school ter ketch 'em, so as I can have some of the fellers to play with.—Pearson's Weekly.

A Stubborn Cough is Wearing and Risky.

Letting a stubborn cough "hang on" in the spring is risky. Foley's Honey & Tar Compound heals raw inflamed surfaces in the throat and bronchil tubes—makes sore, weak spots sound and whole—stops stubborn, tearing coughs. Refuse substitutes. Blackmer & Tanquary. adv.

FARMERS PREPARE FOR CORN PLANTING

Just as soon as the weather permits the planting of corn will occupy the attention of Fayette farmers, and while a great deal of planting is expected to be done this week, planting will probably not become general until the first of next week.

A few have already started the planter, but stopped when the recent cold weather came.

The acreage in this county will be up to the average this year, it is believed, and never before have the farmers picked their seed corn with greater care. A large number have tested the corn to be sure of its germinating powers. Little difficulty will be experienced in selecting corn that will grow, as it was harvested in splendid condition.

COLORED BURGLARS GIVEN TERM IN THE PENITENTIARY

John Curtis and Leonard Wilson, Indicted For Burglary and Larceny, Enter Pleas of Guilty and Are Sentenced to Indeterminate Term in Penitentiary—$4.80 Worth of "Index" Plug Was Amount of Theft.

Within the next day or two John Curtis and Leonard Wilson, the two colored men who have been cooped up in the county jail for more than two months for burglarizing the C. H. & D. station at Fairview, will be citizens of the big Ohio penitentiary.

The pair were indicted by the grand jury Tuesday evening, and Wednesday morning were taken before Judge Carpenter to plead to the indictments. After some little hesitation both entered pleas of guilty to the charges, and Judge Carpenter pronounced sentence, giving each an indeterminate term in the Ohio penitentiary at hard labor. The minimum term is one year imprisonment.

When asked if they had anything to say before sentence was pronounced, each of the men expressed deep regret that the affair had taken place and said they believed the punishment would learn them a lesson. Each of the men asked for leniency, "if the court saw fit to grant it."

The pair will be escorted to the state prison within the next day or two, and before they are released they will probably learn the lesson they suggested.

Their offense consisted of breaking into the C. H. & D. station at Fairview on the night of February 4th, and stealing $4.80 worth of "Index" tobacco—some 12 pounds.

It will be recalled that the pair were later arrested in Chillicothe and returned to this city.

A day or two before they burglarized the station, they were under arrest here for forging several checks for small sums, but were released upon their promise to get out of town.

During their term in jail they have been model prisoners. They claim to hail from Baltimore, Md.

JOHN CULLEN DIES SUDDENLY

Death summoned another well known and highly respected resident of this city, Tuesday evening about six o'clock, when Mr. John Cullen succumbed to an attack of heart trouble and passed away within a few moments at his home on South North street.

Mr. Cullen, who was 57 years of age and had been employed by the Dahl-Millikan Company for more than half his life-time, had been subject to heart disease for some time.

Tuesday morning he was suffering from heart trouble, and did not go to work, but lounged about the house most of the day, and death came suddenly at six o'clock.

The deceased has a great number of friends who are cast down with sorrow over the loss of one they had highly esteemed.

He leaves a widow and three children, Mrs. C. E. Link, of Bloomville, Ohio; Robert Cullen, of Columbus and Charles, of this city.

Funeral services will be held at St. Coleman's church Friday morning at nine o'clock, and interment will be made in the St. Coleman cemetery.

WOMAN INJURED BY GASOLINE ENGINE

Mrs. L. E. Hargrave, of Sabina, narrowly escaped serious injury, Monday, when her clothing became entangled in a gasoline engine, which was used in operating a washing machine, and she was hurled to the floor and badly bruised before the engine became clogged by the clothing and stopped.

Her screams brought the neighbors, who released her from the engine. The unusual accident is a warning to women who have occasion to pass near gasoline engines while they are in operation.

ERRING YOUTH IS STILL AT LARGE

Orville Stooker, the youth who has stolen his sister's hat and bracelet, a set of harness from his father, and even the carpet off the floor of his home, is still at large.

During the past few days the police have used considerable energy in trying to locate the young man, but he has successfully eluded them from time to time, although he is still in or near the city.

He has proven himself a sprinter of no mean ability, and as a dodger has no equal in the city.

BOYS LEFT HOME WITH WIEDER CO.

A youth who ran away from his home in Wellston and came to this city with the Wieder Amusement Co. which is showing here this week, was located and sent home Tuesday evening.

Another Wellston man was here looking for his erring son who was supposed to have come here with the amusement company. He failed to find the lad.

BUILDING INSPECTOR ORDERS MINOR CHANGES

An order from State Inspector of Workshops and Factories Kerns, has been received by the Board of Education and Mayor Coffey, in which many minor changes are ordered at the new High school building.

The order comes from a recent inspection of the building, made by Lester Redding, architect, and Deputy Building Inspector Callahan.

Railings along all stairways are ordered, and some changes in the ventilating system are recommended.

SHOW IS CLOSED PROGRAM CHANGED

The "girls in red", one of the attractions of the Wieder Amusement company's, has been abolished, the management acting under the instruction of Chief Moore.

Wednesday morning the men made application for permission to put on a vaudeville stunt with "mild" dancing in connection. No objection was made by Chief Moore, as long as the show is not of an immoral character.

LAID TO REST WITH SIMPLE SERVICES

The funeral services of Miss Emma Millikan, who died at her home in Lexington, Ky., Saturday, were held at the residence of her brother, Mr. W. W. Millikan, Tuesday afternoon at two o'clock.

The home was filled with relatives and friends, and Mrs. Bertha S. Miller read a simple Christian Science service, Miss Millikan having been a member of the Christian Science church.

A profusion of beautiful flowers, many having been sent from the Kentucky home, surrounded the quiet sleeper.

Following the brief service a number of relatives accompanied the family to the Washington cemetery for the final services.

The pall-bearers were: Hon. A. R. Creamer, Messrs. D. S. Craig, Geo. Hitchcock, Fuller Hess, Gerrie Spragg and Ray Maynard.

Coming from a distance to attend the funeral were the sister, Miss May Millikan and friend, Miss Pointer, of Lexington, Ky., and nephew, Mr. W. R. Wood, of Cincinnati.

INTERESTING ANNOUNCEMENT

Rev. F. E. Ross has just received the announcement that Bishop Wilbur F. Thirkield, resident Bishop of New Orleans, La., will preside at the session of the Ohio Annual Conference, to be held in Grace M. E. church this fall.

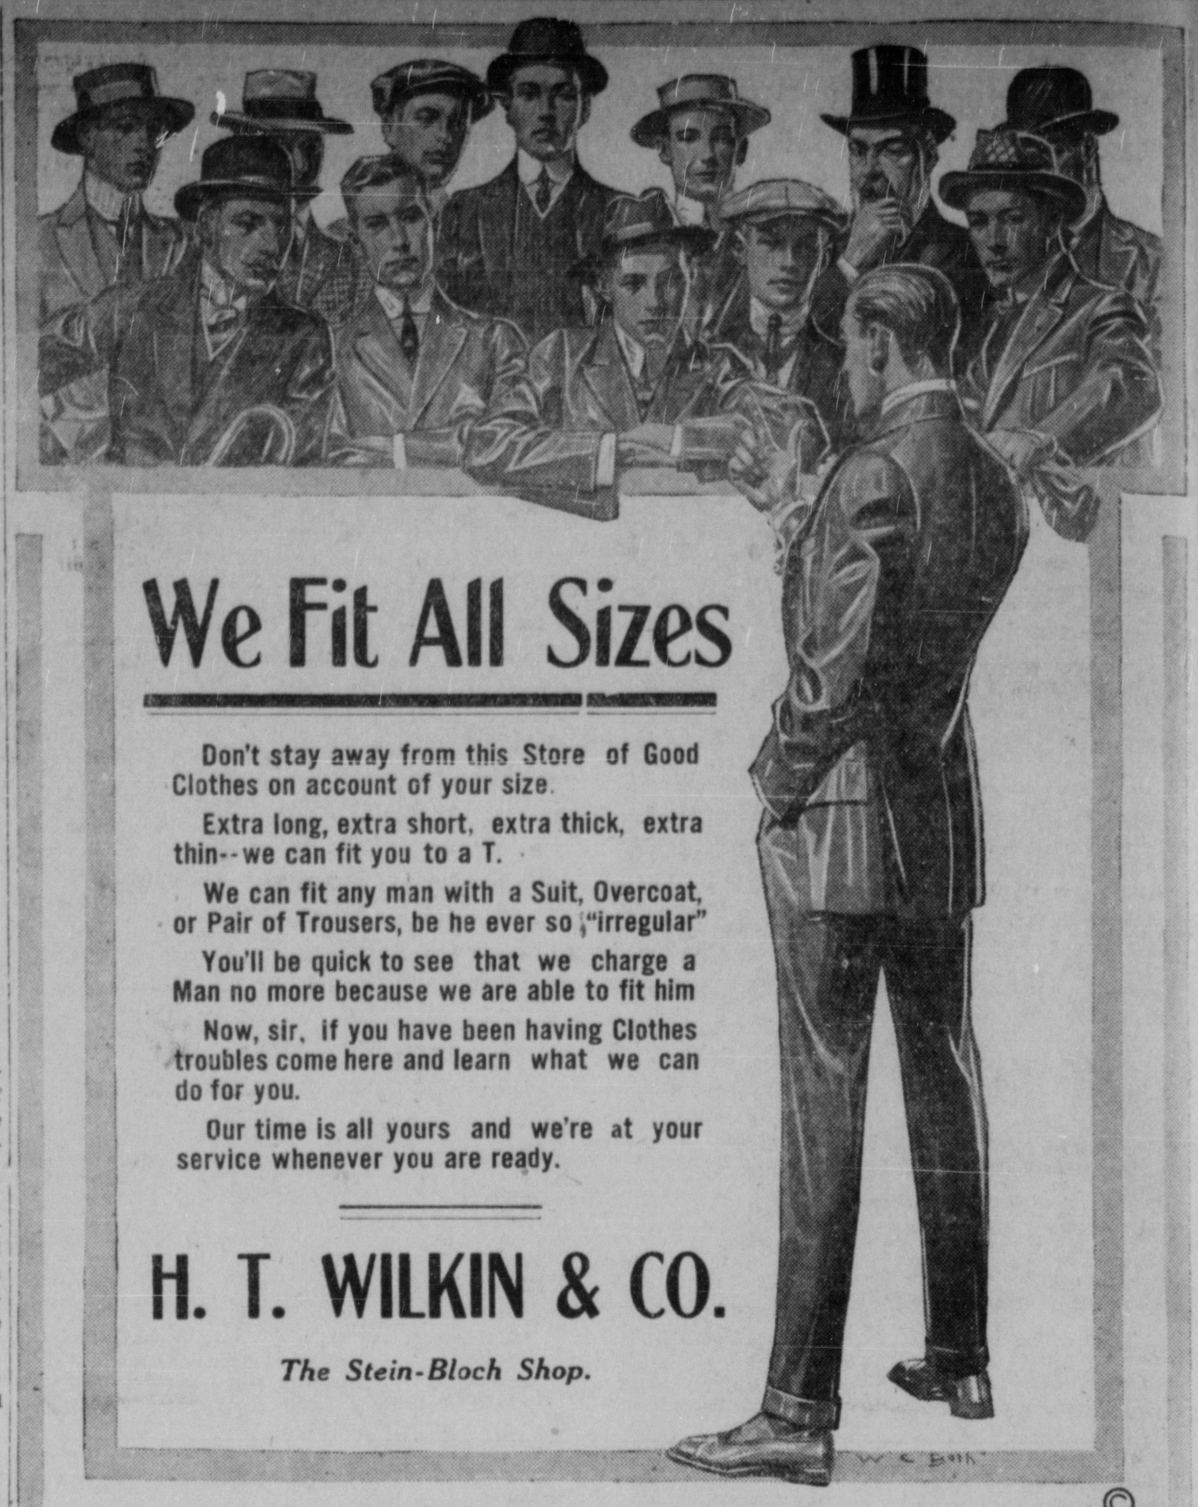

Rev. Thirkield is one of the younger bishops elected at the last general conference and is recognized as a man of fine personality, broad scholarship and splendid administrative ability.

The news of his selection as presiding bishop of this conference will be learned with no small interest.

WOMAN FORGER IS UNDER ARREST

Mrs. Minnie Rutherford Touhy is under arrest in Chillicothe for forging a check upon John Pleasant, of Richmond Dale, for the sum of $200.

The woman succeeded in getting the money at the Ross County National bank, where she gave the name of Mrs. Fred Fuller. When the forgery was discovered the woman was soon under arrest, her "tango" clothing making it an easy matter to locate her.

ALICE NIELSON AT MEMORIAL HALL

Popular Alice Nielson, beloved like by the comic opera and grand opera adherents of today, remembered for the "Fortune Teller", "The Singing Girl" as well as "Faust" and "La Boheme" is coming to Memorial Hall, Columbus, Monday evening, May 11, as the concluding artist of the T. T. Frankenberg series of concerts.

In order to meet a popular demand this concert will be given at popular prices, thus opening it to the largest number of music lovers.

Miss Nielsen has arranged to sing a number of well known selections including arias from "La Tosca" and "Madam Butterfly."

Miss Nielsen is so well known that the comment of critics is superfluous, but it is reassuring to be informed that from Milan to San Francisco they unite in ascribing to her the highest praise, and state that never before has her voice shown the wonderful beauty, color and brilliancy it possesses at the present time.

Special parties are forming in Newark, Granville, Westerville, Delaware, Lancaster and other cities near Columbus assuring a representative and cosmopolitan audience.

Seat reservation can be secured by addressing T. T. Frankenberg, Columbus, Ohio.

FAYETTE BANKER TELLS EXPERIENCE

That it pays to transact business during business hours is the assurance of a Fayette county banker, who has been engaged in banking for more than 30 years.

"During my entire time in the banking business I have never lost on a loan made to a man who applied during business hours, and after a few experiences with the fellow who insisted on transacting business after business hours, I have quit loaning to the man who cannot appear during banking hours".

Continuing the banker said: "The man who cannot follow the regular methods by observing banking hours is not only a nuisance, but is usually careless and not the kind of a man that one can tie to and be safe. Beware of the man who wants to transact business outside of business hours."

ERECTING HUGE NEW SMOKESTACK

F. M. Rothrock is erecting a new brick smokestack for his laundry. The new stack will be 60 feet in height and will supplant the present sheet steel stack which is 38 feet in height.

By increasing the height of the stack he expects to still further eliminate the smoke which pours from the stack, and which frequently sweeps down upon the surrounding neighborhood. By increasing the height of the stack it is believed the smoke will be carried above the surrounding buildings.

W. R. C. KENSINGTON.

The W. R. C. Kensington meets with Mrs. G. W. Inskeep Friday afternoon at two o'clock. All members come and bring knitting.

Washington C. H., Ohio

A $50,000 REAL ESTATE DEAL CLOSED

T. C. Jamison, the local real estate dealer closed a deal Monday with Hon. Ballard B. Yates, of Williamsport for the sale of the old Jonathan Chaffin farm, containing 378½ acres

The farm was owned by the heirs of Joseph Myers, the east line of farm is within one mile of New Holland; it is one of the best farms in that section of the state for grazing purposes as the north fork of Paint creek flows through the land.

The price realized for the farm was $50,000.

It is said by competent judges that the farm was purchased at a bargain as there is a big per cent of the farm that contains fine tillable soil.

This deal is a feather in the cap of Mr. Jamison who only recently removed to Circleville from that county.—Circleville Herald.

WILL EDUCATE NATIVE WOMAN

The Epworth League of Grace M. E. church, at a cabinet meeting held last night in the church parlors, unanimously voted to appropriate money toward educating a native woman in India for missionary work.

It was the general feeling of members that the League assume an obligation of this kind, appropriating money each year toward such a fund.

DR. CHANEY IS RE-ELECTED SUPT.

Dr. N. H. Chaney, formerly of this city, has been re-elected superintendent of the public schools of Youngstown, Ohio.

He has been in Youngstown several years, and has proven himself a splendid person for the position he holds.

LEADS NEIGHBORS FOR BIGGEST CORN

Chas. Burnett is probably the pioneer corn raiser for the season, as he has a field of corn planted April 28th that is between two and three inches in height.

The recent frosts did not damage the tender stalks. So far as known it is the biggest growing corn in the county.

$15 REWARD IS OFFER FOR VIOLATORS

The Fayette County Fish and Game Protective Association has offered a reward of $15 to be paid to anyone who furnishes information which leads to the arrest and conviction of persons who hunt or fish out of season, or use illegal methods of catching fish or game.

NEW TICKET AGENT

Mr. Burnette Hyer, son of Dr. and Mrs. A. A. Hyer, has resigned his position with the U. S. Express Company in Columbus, and is now ticket agent at the B. & O. station in this city.

MEDIATORS NAME NIAGARA FALLS

Peace Conference Will Be Held There Beginning May 18.

WASHINGTON NOT OPTIMISTIC

No Indication That Carranza Intends to Participate In Proceedings and Administration Officials Acknowledge That It Looks Very Much as If Mediation In Mexico Will Be a Failure.

Washington, May 6. — The mediation conferences for the settlement of the Mexican situation will be held at Niagara Falls, Canada, beginning May 18. This was announced officially by the mediators.

While General Carranza, owing to his refusal to suspend hostilities in Mexico, has practically been eliminated from the negotiations, the three South American mediators have left a loophole through which the Constitutionalist leader may reverse his decision and be accepted in the peace party. There is no indication that Carranza intends to yield.

The elimination of Carranza has seriously threatened what little likelihood of success there was in the mediation program. This was apparent on all sides here. Optimism is at the lowest ebb since the peace proceedings were inaugurated, and officials who heretofore have been hopeful acknowledge for the first time that it looks very much as if mediation in Mexico will be a failure.

This disquieting view of developments in Washington was intensified by information from Vera Cruz which indicated that the Mexican federal troops under General Maas were proceeding rapidly with their preparations of defense. It was reported to the war department from Vera Cruz that the Mexicans had mined the railroad tracks from that port to Mexico City, preparatory to destroying the road in the event of the American forces attempting a march on the capital. The mines are said to be located about half a mile apart and Mexican soldiers have been detailed to light the fuses in the event of hostilities.

General Funston has already reported that there are about 15,000 Mexican troops between Vera Cruz and Mexico City. The mining of the railroad tracks and the throwing up of other defenses are obviously strengthening the position of Huerta's men and are a source of considerable worry to General Funston.

Army officers in Washington feel that the task of marching to Mexico City, if that shall finally be undertaken, is daily being made more difficult.

The mediators in their note to Carranza disclosed officially for the first time that they feel that "all the difficulties which have contributed toward the present situation in Mexico must be the subject of consideration in the mediation proceedings." They make it apparent, too, that they deem a suspension of hostilities indispensable to the proceedings, and they notify Carranza that if he does not agree with them on this point they will be compelled to withdraw their invitation to him to participate in the coming conference.

CHARTER WINS BY THOUSAND

Columbus, O., May 6.—A new charter was voted for Columbus yesterday by a majority of 1,042. Only one-third of the normal vote was polled.

The city will elect its first officials in November, 1915, to begin their terms Jan. 1, 1916. A nonpartisan ballot, with the elimination of party designations, is provided. Instead of the election of councilmen from wards, seven councilmen will be chosen at large.

In the election of the mayor, city attorney and auditor, the preferential system of voting is adopted. Under this method primary elections are eliminated. The city treasurer is appointed by council. The initiative, referendum and recall have been provided. Terms of all elective officers have been extended from two to four years. Civil service regulations, supplementing prevailing statutes, have been incorporated in the charter. A division of public welfare, a public defender and a board of purchase are to be established.

BOAT DRIFTING WITH 19 MEN

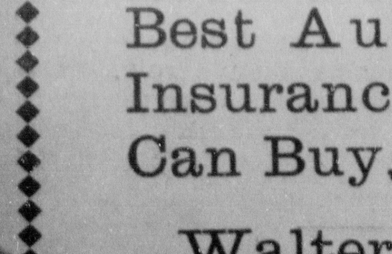

Thirteen Victims of Ship Fire Are Rescued at Sea.

Boston, May 6.—The freight steamship Columbian of the Leyland line, bound from Antwerp for New York, caught fire and was wrecked by a series of explosions in her hold when 150 miles south of Sable Island. A boat containing 13 of her crew was picked up by the steamship Franconia, one of the vessels which responded to the wireless call from the steamer Seydlitz, the first craft to sight the burning Columbian. Another boat containing 19 men is being searched for by the Franconia. Chief Steward Matthews of the Columbian was one of the men in the boat picked up by the Franconia, but he died just after being rescued. No mention is made in the Franconia's wireless message to Charles Stewart, agent of the Cunard line here, of the Columbian's captain, and it is feared he perished with his vesesl.

The survivors suffered terribly 'uring 40 hours' exposure in an open boat. Their exhaustion was so great that it was impossible to obtain a coherent story from them several hours after they were picked up.

Villa's Troops on the March.

THESE are views of Villa's rebels. One of them shows some of his infantry marching through Chihuahua on the way south. They later took part in the siege and capture of Torreon. The other shows another troop of rebels with the advance guard near Torreon. The battle of Torreon was the last big conflict of the revolution before the Tampico incident

CONFER ON IRISH CASE

Premier Asquith Hopes For a Peaceful Settlement.

London, May 6. — Conferences between members of the government and the Irish leaders in reference to a settlement of the home rule question which were expected to follow the conciliatory speeches in the house of commons April 29, have apparently begun. It is reported that Premier Asquith, Winston Churchill Bonar Law, leader of the Unionists, and Edward Carson, leader of the Ulster Unionists, met privately today. The Irish Nationalists were not represented at the meeting.

Replying to a question on the home rule settlement in the house of commons, Premier Asquith said the government was taking steps which seemed to him to be most likely to conduce to a peaceful settlement. He added that the house of commons would ultimately have control of the matter.

MAY CALL STRIKE OF OHIO MINERS

Indianapolis, May 6.—A committee, which not only will report upon the Colorado strike situation but also will consider the feasibility of a general strike in the coal mining industry, was appointed by the international executive board of the United Mine Workers of America. William Green of Ohio is a member of the committee.

UPTON WRITES ROCKEFELLER

New York, May 6.—Upton Sinclair sent a letter to William Rockefeller requesting an interview with him on the subject of the miners' strike in Colorado. In asking for the interview he took occasion to say again that he has had and will have nothing to do with the firebrands who have urged violence against members of the Rockefeller family.

HOUSE WANTS 2 BATTLESHIPS

Washington, May 6.—By a vote of 148 to 91 the house went on record informally in favor of an authorization for two big battleships in the pending naval appropriation bill. The fight over the battleships was conducted with the usual bitterness.

WILSON TO SPEAK

Washington, May 6. — It was definitely announced that President Wilson will attend the memorial exercises at New York Monday for the sailors and marines killed in the occupation of Vera Cruz. The president will leave Washington Sunday night, arriving in New York in time for the exercises at noon. He will deliver the only address. Secretary Daniels has invited Admiral Dewey, Secretary of War Garrison, Assistant Secretary of the Navy Roosevelt and the aids to the secretary of the navy. These will leave here Saturday night on the president's yacht, Mayflower and will meet the Montana, bearing the dead heroes off the Virginia capes Sunday.

MISS MARY GARDEN SUED BY WOMEN

New York, May 6.—Papers filed in the supreme court show that before Miss Mary Garden sailed for Europe she was served with a summons in a suit brought to recover $1,000 because she failed to keep an engagement to sing at a concert at Columbus, O., in January, and didn't even take the trouble to send word that she wouldn't be on hand. The suit is brought in the name of Ella May Smith as president of the Women's Music club of Columbus.

DEMOCRAT TO GO TO PERSIA

Washington, May 6.—It is understood in official circles here that Charles W. Russell, American minister to Persia, will be recalled and a Democrat appointed to fill the post. The state department officials refused to deny the report. Russell is a hold-over from the last administration, receiving his commission from President Taft Dec. 21, 1908. He is a native of West Virginia.

OLDEST TWIN IS DEAD AT 95

His Brother, at Bedside, May Not Survive Shock.

HAD LONG LIFE TOGETHER

Last Family Reunion on Christmas Day Attended by Scores—They Were Both In Excellent Health Then—Remarkable Parallels In Life of Two Men—Each Had Eight Children.

Babylon, N. Y.—Samuel Muncy, one of the oldest twins in the world, died at his home here in his ninety-sixth year. Samuel and his brother William were born on the old farm in Babylon on Christmas day, 1818, and lived there ever since.

Last Christmas, when the twins celebrated their ninety-fifth birthday, there gathered about them at Samuel's home thirty of their many descendants, including sons and daughters, grandchildren and great-grandchildren. The twins sat side by side at the dinner table. On one side sat the children of Samuel and their children's children, and on the other sat the progeny of William.

Photo by American Press Association.

THE MUNCY TWINS.

Samuel was not in the best of health then, and he grew weaker and weaker, until he succumbed. William was at his bedside, and it is feared that the shock of his brother's death will be more than he can endure. The two saw each other daily and the companionship of the two was keen.

Both men were tall and stalwart. It was only until recently that they could not devote much time every day to some sort of labor. Together they took walks, and the friendship between the two was just as keen as when they went fishing or hunting together as boys.

The two men were proud of their health and longevity. They attributed their long life to work in the open air and abstinence from alcohol and tobacco. They never gambled. Both were ardent Prohibitionists and argued hard for the cause. They voted for James G. Blaine for president, but since then they have been in the Prohibition party.

The twins were descended from a long line of prosperous farmers. The farmhouse in West Babylon in which they were born is probably the oldest building on Long Island. The twins had two brothers and one sister, but they outlived them all by many years.

The twins married about the same time. Samuel married Rebecca Sammis of Babylon when thirty years old, and shortly afterward William married Mary E. Fleet of Brooklyn. They had been widowers for many years. Both men were blessed with eight children each. Up to a few years ago four of Samuel's children and seven of William's were alive. Just how many descendants of the two are alive today it would be hard to calculate.

At the time of their respective marriages each built a home for himself on the old Muncy farm. After the death of their wives the two went to live together, but they decided finally it would be better for Samuel to have his daughter, Mrs. Samuel Smith, with him, while William went to live with his son, Smith Muncy, near by.

The two men owned a great deal of property on Long Island. Both believed they would celebrate their one hundredth anniversary together, and they decided they did not want their children to wait for years to enjoy things, so they parceled out the property.

There was some talk shortly before their last birthday of hiring a special car and sending them to Washington to see President Wilson, but the twins felt they were too old to make the trip, and the project was abandoned.

Go Without Saying.

Among those things that go without saying may be included the language of deaf mutes.—Puck.

Comfort Comes Instead of Pain

Rheumatism, Lumbago, Soreness of All Kinds, Quickly Rubbed Out When You Apply Speedway.

Pain leaves like magic when you apply Speedway. You just seem to smooth all the trouble out, and instead of hurting while doing it, there is a cooling, soothing sensation right away. Remember—Speedway is doing its work the minute you put it on, even though it cannot torture you, or harm the most tender skin, or stain the flesh or daintiest fabric.

You can absolutely depend upon Speedway going right to the spot and doing all we claim for it. If you're not satisfied, the druggist returns your money.

You get delightful relief the very first rub. You run no risk, and our advice to you is to get a large bottle right away if you want to travel "the road to quick relief."

Speedway was discovered and used for many years by an old Scotch physician. It was brought to America, and is now offered to all who suffer from rheumatism, lumbago, sore throat, bruised tendons, tired feet, sprained muscles—any muscular soreness whatsoever.

Why suffer when Speedway is at your service to relieve you? A free book with each bottle gives full directions for all uses. Get a bottle today from Blackmer & Tanquary, Christopher or Baldwin and know the complete comfort that this marvelous remedy gives.

WOMANSUFFRAGE AND PROHIBITION

Resolutions Propose Two Constitutional Amendments.

THEY APPEAR IN THE HOUSE

Judiciary Committee Submits Without Recommendation Two Mooted Questions For Such Action as the Representatives May See Fit to Take—Advocates of the Measures to Demand Action.

Washington, May 6. — Resolutions proposing two constitutional amendments that have been the subject of agitation in the United States for years were reported to the house by the judiciary committee. One of the amendments contemplates national prohibition of the liquor traffic and the other provides that suffrage shall be conferred on women.

The committee made no recommendation on either of these big proposals. It simply submitted them for such action as the house may see fit to take.

Present indications are that a vote will be forced in the house at this session on the prohibition amendment. Doubt is expressed that the senate, even if the amendment is adopted by the house, will concur at this time. If the Democratic leaders stand by their guns there will be no action at this session on the suffrage amendment.

At a caucus of the house Democrats held early in the winter, a resolution was passed expressing it to be the sense of the dominant faction that no action should be taken on equal suffrage at this session. Both issues, though, are "loaded" with the possibilities of political trouble, and there is no telling what will happen when congress once begins to feel the pressure of organized campaigns.

The amendment relating to the liquor traffic gives congress the power to regulate the manufacture and sale of intoxicating and other alcoholic liquors on ratification of the amendment by three-fourths of the states. The suffrage amendment provides that no citizen of the United States shall be deprived of the right to vote on account of sex. The prohibition amendment is pending in another form in the senate. Whether it will be reported in that body may or may not depend upon action by the house. This amendment particularly is a cause of great worry on the part of senators and representatives who are candidates for re-election this year.

Despite the caucus action of the house Democrats in sidetracking the suffrage amendment, that question is by no means dead for this session. Its advocates intend to press it for action with all the energy for which they are noted, and they are in an optimistitc frame of mind.

The suffrage amendment in the form in which it was reported by the house committee was defeated in the senate a month or two ago. It was reintroduced in the senate in a modified form, was reported on April 7 and is now on the calendar awaiting action.

BIG AGRICULTURAL LAND OPENING!

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open **Twenty Thousand Acres of rich, Southern Georgia Land,** which is admirably adapted to the growing of celery, sweet and Irish Potatoes, canteloupes, water melons, corn oats, cotton, hay—in fact all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classications prescribed by us you are now offered an excellent opportunity to break away from the drudgery and toil of a suall wage, or working for the benefit of landlords, and go back to a land of plenty to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefitting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to $1,268.45, and that one acre of well-cared-for paper shell pecans in full bearing should net its owner as high as $500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful and invigorating, and there is an ample rainfall of 51 inches per year.

Our Aim is For Mutually Beneficial Results

As we are extremely desirous of having settlers locate on this property and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlanta Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening similar to those of the Northern Pacific and other railroads when they granted their lands and we expect to benefit thereby as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most-up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend—for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted as soon as possible.

With the ever increasing population of this country there is no corresponding increase of the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

SOUTHERN GEORGIA RAILROAD LAND DEVELOPMENT BUREAU,
COLORADO BUILDING, WASHINGTON D. C.

Southern Georgia Railroad-Land Development Bureau,
Washington D. C.

Registration Department:

I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish you with the correct answers to the following questions:

Name.....City.....

State.....Street or R. F. D. No.....

Age.....Married or Single.....Widow, Widower or Orphan.....Occupation.....

Nationality.....Do you now own over ten acres of land in the United States?.....

If my application for registration is accepted please send me, without obligation, further and complete information and particulars, including maps of the land, showing its exact locacion on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.

Very Truly yours,

.....Signature

Views of Others

AGAINST FREE TOLLS.

Colonel George W. Goethals has added his voice to the protest which is going up against granting free tolls to American coastwise trading ships passing through the Panama canal. The injustice of taxing the people of the United States in order that a few favored ship owners may secure an increased profit is apparent to all thinking people and it will be the political death warrant of all congressmen and senators who vote for this gigantic steal.

Every ship passing through the Panama canal should pay toll. The builder of the canal and men conversant with the facts in the tolls controversy have arrived at the same conclusion. The canal was built with funds furnished by all of the American people and if there is any benefit to be derived from it, it should be shared by all. The farmer in the prairies of the west, the miner and the ranchman has paid proportionately with the dwellers along the seaboard, the ship owners and the merchant of the seaports. If there is any justice, the ships using the canal will be charged tolls and the revenue will be applied by the government to benefit all of the American people.

The attempt to mask a gigantic steal under the pretense of patriotism will not suffice the advocates of ship subsidies in the present case. It is admitted that America has the right to permit her ships to pass duty free if she so desires. If the warships are sent through the canal or any other government-owned vessel passes through the locks, no duty should be charged, but all private boats should be compelled to pay toll whether they fly the flag of this nation or that of a foreign country. Profit knows no country and the dollar sign has succeeded the flag in commercial enterprises. Any enterprise purely for private gain should not be shown special favors by the government, and an appeal to patriotism in order that a few men may become multi-millionaires is anarchy.

The provision providing for free tolls for American ships should be repealed. The day of subsidies is gone by in this country. Special interests are no longer to be served against the interests of the whole people, and the free tolls provision is a measure at once unjust and unpariotic. Colonel Goethals and those fighting the measure deserve success.—Springfield Sun.

VALUE OF GOLD

On the first page of the Sun, Sunday morning, at the top of the sixth column, was a dispatch from Helena, Mont., announcing the discovery of ore (gold, I suppose) 80 per cent pure, worth $30,000,000 a ton.

Now, gold is worth $20 a troy ounce. Its coinage value is $20.67 plus. A pound avoirdupois equals 16 ounces avoirdupois, but only 14 7-12 ounces troy, the latter ounce being a little heavier than the former. A ton of pure gold (2,000 pounds avoirdupois, or 29,166 plus ounces troy) is worth a little over $583,000. A ton of ore 80 per cent pure would be worth a little over $466,000. This $30,000,000 is nearly 70 times too much. Does the mine yield radium?

This recalls a wild rumor that got into circulation during the Boer war that President Kruger had left, taking with him over a million sterling in gold. I forget the exact sum named, but it would have weighed about 10 tons. The report did not say whether he carried it in his waistcoat pocket or in a suitcase.—New York Sun.

Cost little; pay much—Want ads

FARM AND GARDEN

Most Important Product.

What is the most important product of Ohio farms? Is it corn? Or, is it live stock? The authorities at the College of Agriculture, Ohio State University, think that neither of these is the leading crop. They are convinced that another product of the farm is more important and are now arranging to give it their attention.

This most important product of the farm is nothing less than the young men and women who grow up there. To surround these young people with the best conditions both morally and socially is the aim of certain men and women in each community. Dr. W. O. Thompson, President of the University, invites these rural leaders from all over the state to come together at Columbus and discuss their common problems. The sessions will be held at the Ohio State University from August 10th to 14th and will be called "Country Life Week." In addition to the round table discussions there will be several addresses each day by men of state and national prominence. A feature will be reports of definite community betterment. The reports will be made by ministers and laymen who have participated in the incidents which they relate.

Meets With Favor.

Many people are reluctant to take up new things. However, Mary C. Phillips, superintendent of the schools at Mallet Creek, Medina County, Ohio, is not one of them. When she came to her present position three years ago, she saw the need of some instruction in domestic science for the girls of her high school. Public sentiment, as might be expected, was not all on the side of the new departure.

Although the school board had a good many misgivings, she finally persuaded them to buy the necessary equipment. A kitchen cabinet, a gasoline stove, dishes and other necessary articles were purchased. The school house contained no separate room that could be used for a domestic science laboratory, so it was necessary to use one corner of the high school room. Here the pupils received their instruction and did their work.

Even under these obstacles the plan has been so successful that a marked change has taken place in the attitude of the community. The board and patrons of the school are well pleased for they see how the instruction in the school is made to fit in the home life of the pupils. The girls like the new order of things because they can now see more connection between the subjects taught in school and the work that they may reasonably expect to do in mature life.

Smile on wash day. That's when you use Red Cross Ball Blue. Clothes whiter than snow. All grocers. adv

NOTICE.

The regular monthly meeting of Class No. 2 of East End Chapel will be held Wednesday evening at 7:30 o'clock at the home of Mrs. Compton on E. Yeoman St. All members cordially invited.

OLNEY PRAISES ADMINISTRATION BUT CAN'T HELP

By Associated Press.

Washington, D. C., May 6—President Wilson today received the reply of Richard Olney declining the appointment as Governor of the Federal Reserve Board. Mr. Olney said he declined because it would be necessary for him to give his entire time to the work of the board. He had assumed duties, he said, which from their personal nature cannot be devolved upon others.

"I regret," he said, "that I am able to do so little in aid of an administration whose first year of achievement makes it the most notable the country has ever known."

BABY GIRL ADOPTED

Big land deals do not seem to be the only contracts in which Mr. T. C. Jamison, of Circleville, son of Mr. J. L. Jamison, is engaging in.

Mr. and Mrs. Jamison, who have no children of their own, on Wednesday legally adopted an eight months old baby girl and will bring it up as their own.

The baby's parents are compelled to be on the road all the time and the little one's health was suffering from the constant traveling.

It was owing to these unfortunate circumstances that the parents were induced to give her up. They have an older child, 22 months of age.

The adopted baby is a beautiful child and comes of good family and well educated people, and the mother is a musician.

Mr. and Mrs. Jamison deem themselves fortunate in securing the little one.

All the steps for legal adoption have been taken.

Mr. Jamison is over from Circleville for the day.

NEW NEWSPAPER FOR CIRCLEVILLE

Hon. Percy A. Walling has announced that on or about June 1st he will establish a new Democratic daily and weekly newspaper in Circleville.

Walling announces that he will be sole owner and editor, with no friends to reward or enemies to punish.

SILLY CLEVELANDERS

If the people of Cleveland have found that the use of Central Standard time seemed inconvenient, it would have been a very simple matter for them to change the hours of opening and closing their shops 30 minutes, and, instead of running from 8 to 5, run from 7:30 to 4:30. That would have been the honest way to meet the condition, and it has been so met successfully in many locations Such an adaptation of the working day would have brought them almost exactly in accord with the mean solar time of the meridian of Cleveland, and would not have tended to disintegrate the general plan of uniform Standard time which has been in effect for the past 30 years. Those who are old enough to remember the inconveniences which resulted from the isolated individualism prevailing prior to 1883 will hesitate to approve any steps that have a tendency backward toward the confusion of those days.

If certain people in Cleveland and its vicinity want to get up an hour sooner than they have been rising, why in the name of common sense don't they do it without "monkeying with the hands of the clock?" as the proposed action was styled by Astronomer Royal Christie, of England. It is a libel upon the intelligence of the citizens of Cleveland to suppose that in order to persuade them to rise at, say 5 or 6 o'clock instead of 6 or 7 that they are so feeble-minded that they have to be cheated into that action by setting the hands of the clocks one hour ahead, so as to make them think they are still rising at the same hour as before. Are they of such a hidebound conservatism that they cannot rise unless the hands of the clock point to the accustomed hour?

If the gain by rising earlier was of anything like the benefit that is claimed by the advocates of the change, those advantages ought to be sufficient to induce the people to act in the matter without assailing the uniform Standard time that has been in use upon all the railways of Ohio since 1883, and in its cities and towns generally.—Official Railway Guide.

BECKER IS AGAIN ON TRIAL

By Associated Press.

New York City, May 6.—Charles Becker, once a lieutenant in the New York Police department was today placed on trial for the second time for the murder of gambler Herman Rosenthal in July, 1912. Notwithstanding that the crime was committed nearly two years ago, public interest in the case appeared hardly less acute than at the first trial when Becker and the four gunmen were found guilty. The latter died in the electric chair; Becker was granted a new trial by a Higher court.

At the outset of the proceedings today the defense attacked what it characterized as District Attorney Whitman's practice of talking to the newspapers "to the detriment of their clients." For this reason they asked for a change of venue. This the court denied and the selection of the jury was begun. By noon, 13 talismen had been called and eliminated, and one juror had been accepted by both sides.

SEVENTEENARE STILL ADRIFT

By Associated Press.

Sable Island, Newfoundland, May 6.—Captain McDonald and 13 members of the crew of the British steamer Columbian, burned at sea, were saved by the steamer Manhattan, according to a wireless message received here today.

The message reads: "Manhattan picked up one boat of Columbian. Captain and 13 members. One engineer killed and one drowned in leaving ship. Manhattan still searching for other boat."

Yesterday the Cunard liner Franconia, picked up one of the Columbian's boats containing 13 men and the body of chief steward, Matthews, so that 27 in all have been rescued alive. The boat still missing contains the first and second officers and 17 men.

STRIKE MAY BLOW OVER

By Associated Press.

Indianapolis, Ind., May 6.—There probably will be no general strike of coal miners in Ohio, as requested by the committee of Ohio miners which appeared here yesterday before the International Executive Board of the United Mine Workers of America. This statement was made by William Green, Secretary-treasurer, when shown the dispatch from Columbus, O., stating that the operators had offered to renew negotiations.

MAY ACCEPT RUN OF MINE

By Associated Press.

Columbus, O., May 6.—E. A. Cole, president of the Hocking Valley Coal Operators' Association, it was announced today, has mailed letters to both state and national officials of the United Mine Workers of America, in which he expressed the belief that if another conference is held a settlement of the wage difficulty could be reached.

He also indicated a disposition on the part of operators in the Hocking Valley district to accept a run of mine wage system.

There are between 15,000 and 20,000 miners in the Hocking Valley district.

Lord Curzon is the most imperturbable of men, but there have been times when he has quailed. George W. Smalley in his "Anglo-American Memories" tells how "at a country house party Jowett said to Lord Curzon, 'Come to my room after dinner and we will have a talk.' The master of Baliol spoke as if Curzon were still his pupil, and his pupil assented as if the old magisterial authority survived. To me he whispered, 'I have not been in such a funk since I left.'"

Musical Discord.

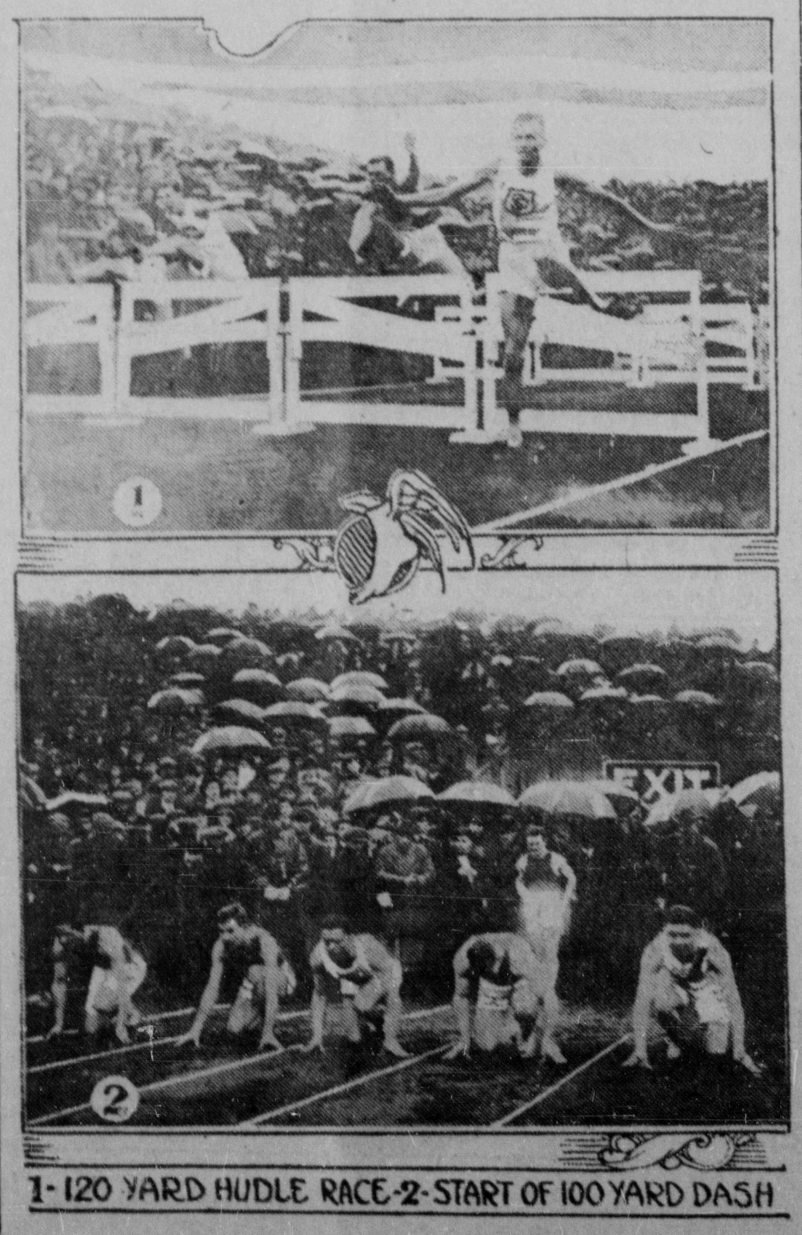

"He is a musician, is he not?" "No, indeed!" "But he plays in a band?" "He does."—Houston Post.

Progress.

"How is your Shakespearean club getting on?" "Splendidly. We learned two new steps last week."—Life.

PHOTO OF PENN RELAY MEET, WHERE WESTERN ATHLETES SCORED HEAVILY

The University of Pennsylvania relay races at Philadelphia were highly interesting and marked by close finishes. The illustration shows Fred Kelly of the University of Southern California winning the 120 yard hurdle race and the classy field starting in the 100 yard dash, won by Drew, also of the southern California institution. Drew is the central figure in the lower photo. Representatives of this college won four events from the pick of the world's track and field champions.

MAY NOW SEND TIRES BY PARCEL POST

Automobile tires may be sent by parcel post, and as a result of the new method of shipment, a large business is expected to result through shipment of tires by parcel post.

A letter written to the postmaster at Xenia explains the shipment of tires as follows:

"In reply to your letter of the 27th ultimo, I have to say that in measuring an automobile tire or casing which is so wrapped as to leave a clear space in the center, the outside diameter shall be taken as the length and the distance around the body of the tire, that is the mere circumference of the tubing or casing, shall be taken as the girth. For example, a tire or casing 32 inches in diameter, the tubing or casing being 3½ inches thick, would have a length of 32 inches, while its girth would be approximately 11 inches, making the length and girth combined 43 inches, and, therefore, within the limit of size prescribed for fourth class or parcel post mail.

"However, in measuring a tire or casing which is so wrapped as to form a circular-shaped solid parcel, or leave no perfectly clear space in the center, the outside diameter of the parcel shall be taken as the length, and twice its diameter and thickness as its girth.

"A. M. DOCKERY,

"Third Assistant Postmaster General".

GEN. FUNSTON HAS BEEN AUTHORIZED BY THE WAR DEPARTMENT TO EXTEND LINES AND FORTIFY

Move Will Give Him a Free Hand in Dealing With Federals in Vera Cruz Region—Reports He Has No Information Concerning Movements of Mexican Troops.

HUERTA SOLDIERS TEARING UP RAILWAY TO KEEP YANKEES OUT OF MEXICO CITY

Mediators Arranging to Hold Sessions on Canadian Soil and Open Negotiations for Quarters at Niagara Falls—Consul Bonney and Wife Safe at Last.

By Associated Press.

Washington, D. C., May 6.—Orders have gone from the War Department to General Funston, it was learned today, authorizing him to extend his lines about Vera Cruz as far as "in his judgment it is necessary." This, it was explained, gives the American commander virtually a free hand in dealing with the situation at Vera Cruz, and it was said that the American lines would at once be extended and heavy fortifications thrown up.

TEAR UP RAILWAY

By Associated Press.

Washington, D. C., May 6.—General Funston, at Vera Cruz, reported to the War Department that he had no definite information regarding movements of the Mexican troops and said he thought it probable that concentration of such Mexican troops was made for the purpose of defending the lines of railroad to Mexico City in case the United States troops should advance.

Mexican natives reported that the track of the Inter-Oceanic Railroad was being torn up.

RUMOR SAYS VILLA WILL BURN TAMPICO

By Associated Press.

Washington, D. C., May 6.—Admiral Badger reported to the Navy Department that Constitutionalist forces made a sharp attack yesterday upon Mexican Federal troops in the northwest portion of the province of Vera Cruz and to the west of Tampico. There was no decisive results as far as he could learn, the report said.

Admiral Badger's report further said that Admiral Mayo informed him of persistent rumors current about Tampico that General Villa was on his way with reinforcements for the Constitutionalists and intended to "take and burn the city."

Admiral Mayo stated that he did not put the slightest faith in the truce supposed to have been arranged between the Constitutionalists and Federals at Tampico. There had been no trouble recently in the oil well district, he added.

MEDIATORS TO MEET IN CANADA

By Associated Press.

Washington, D. C., May 6.—The South American mediators who are seeking an adjustment of the Mexican trouble, were perfecting plans today for the removal of the conference to Niagara Falls, Canada, on May 18th. Telegrams were sent to a leading hotel there now closed, asking if it's opening would be advanced so as to accommodate them. If this is arranged, headquarters will be established there, otherwise at another hotel or private cottage for which negotiations are under way. The mediators will leave on Thursday, May 14th to arrange preliminary matters for the session on the Monday following. The party includes secretaries, stenographers and other officials and will number about 15, not including the United States and Huerta delegates, or those of Carranza, should he finally come into the deliberations. The envoys continued their sessions today, expecting to advance on various branches of the work pending the opening of the conference at Niagara Falls.

BONNEY IS SAFE

By Associated Press.

Washington, D. C., May 6.—The Brazilian minister in Mexico City informed the State Department today that American Consul Bonney, reported under arrest in San Luis Potosi, had arrived in Mexico City with Mrs. Bonney. Both were safe and well.

The Minister added that the last accounts indicated all Americans in San Luis Potosi were safe.

HERRICK DECLINES

By Associated Press

Cleveland, Ohio, May 6.—In response to a cablegram sent to him in the name of a friend urging him to become a candidate for United States Senator from Ohio, Ambassador Myron T. Herrick cabled from Paris to his son, Parmeley H. Herrick, here today, saying he would under no circumstances enter the race.

BRITTISH DEMAND

By Associated Press.

Port Au Prince, Haiti, May 6.—The British diplomatic representative at Port Au Prince today delivered an ultimatum to the Haitian government demanding the immediate payment of an indemnity of $62,000 to a British subject in compensation for the destruction by fire of his sawmill during the Leconte revolution. The ultimatum expires at 6 o'clock this evening.

VIEW OF LUDLOW, COLO., AFTER FIRE SWEPT MINERS' HOMES; STRIKERS ACCUSE GUARDSMEN

Trinidad, Colo., May 5.—Conditions in the strike zone have been growing even more critical. The coal miners accuse the soldiers of cruelty. Dr. Ada Harvey of Aguilar, physician for the union there, states that after the fire in the tent colony at Ludlow had virtually subsided and while the women and children lay in the "safety" pits the militiamen applied torches to the tents after pouring kerosene on them. The physician told the coroner's jury that he and Frank Bayes, a ranchman, witnessed this deed. The ranch house, in which many of the women and children refugees from the colony sought shelter, he testified, was under the troops' fire during the major part of the day. He exhibited a bullet which had smashed through a window casing and landed, spent, on the floors of one of the rooms, in a corner of which women and children were huddled.

TO PASS ANTI-TRUST LAWS AND ADJOURN

By Associated Press.

Washington, D. C., May 6.—Probable adjournment of Congress by July 10th was predicted by Senator Kern, Democratic leader of the Senate, after a White House conference at which the President, Senators Kern, Hoke, Smith and O'Gorman discussed the legislative program.

Senator Kern said he believed the Panama Canal Tolls Repeal Bill would be disposed of within two weeks, and that the administration anti-trust program would be completed before adjournment. He said he was hopeful the Rural Credits Bill would be reported. "We are not going to stay here all summer, you may be sure of that," said Kern.

STUDENT FALLS FROM FLAG POLE

By Associated Press.

Ada, Ohio, May 6.—Walter Bradley, of Rochester, N. Y., a student at the Ohio Northern university, while attempting to nail a class flag on the top of a tall pole today, fell 70 feet. He is unconscious and probably will die.

DENIES NEW TRIAL FOR LEO M. FRANK

By Associated Press.

Atlanta, Ga., May 6.—Judge Ben H. Hill, of the Fulton County Superior court, today denied the extraordinary motion for a new trial for Leo M. Frank, the young factory superintendent under sentence of death here for the murder in April of last year of Mary Phagan, a factory girl.

In denying the motion Judge Hill announced that he would sign a bill of exceptions, thus allowing the ruling to be appealed to the State Superior court.

REBELS ENTRAIN FOR BIG BATTLE

By Associated Press.

Torreon, Mexico, May 6.—A detachment of Villa's troops stationed here, entrained today for Monterey, which will be the base of operations in the Rebel attack against San Luis Potosi and Saltillo.

The troops which left here will detrain at Hipolito, and from thence will march overland to Monterey.

MEDIATION DRAGGING; MEXICO IS THREATENED

Carranza Out, But Can Get In—U. S. Has Not Named Delegates and Is Saying Nothing—Huerta Losing Hold on Capital, and Zapata Threatens to Beat Villa to Slaughter.

By Associated Press.

Washington, D. C., May 6.—Mediation in the Mexican crisis will proceed without the representation from the Constitutionalist forces in the revolution-torn Republic. This definite announcement was made today by one of the South American envoys after the mediators had conferred at the State Department with Secretary Bryan.

That Carranza might change his mind and eventually come into the mediation conference, which now will proceed on Canadian soil, of the differences between the U. S. and the Huerta government, was considered doubtful by the diplomats. "Carranza is a strong man, and not likely to readily change his mind like a woman", was the characterization of the Constitutionalist chieftian by one of the envoys.

Relating to their conference with Secretary Bryan, the mediators had nothing further to say, but Mr. Bryan reiterated his statement that this government had not yet outlined any basis upon which it would mediate, and that thus far it merely had accepted the good offices of the South American envoys. When the United States would name the delegates to advise with the mediators was not known.

Persistent reports from Tampico of the preparations for a decisive conflict between Constitutionalist and Federal forces attracted attention of American officers here and at Vera Cruz, and reports continued to pour in from Mexico City from many sources that Huerta's position is growing worse. In diplomatic circles dispatches have been received stating that fear of an attack on Mexico City by General Zapata's forces causes considerable alarm. Huerta's hold upon his soldiers, dispatches say, is weakening, and possible opposition to the Zapata movement, it is declared, is weakening. Zapata has said he would get to Mexico City before Villa.

ROBINSON KILLS GIRL AND SELF

By Associated Press

Middleport, Ohio, May 6.—Lloyd Robinson, 30, shot and killed his sweetheart, Olga Landis, 22, in the parlor of a hotel here last midnight and then turned the revolver on himself and sent a bullet through his brain.

Robinson's home was at Boone, N. C. Jealousy is said to have caused the shooting.

TROOPS ON BORDER

Photo From Nuevo Laredo Shows Arrival of Fresh Men.

© 1914, by American Press Association.

These are the most recent war pictures from the border. They were taken at Nuevo Laredo and show the ruins of a building after it had been burned by Mexican troops. The other picture shows United States soldiers on the run, following rumors of disorder on the border line by Mexicans.

AWFUL FATE OF A WOMAN

By Associated Press.

New York, May 6.—Mrs. Mary Louise Etchageray, 29, wife of Louis Etchageray, Mexican Minister to Costa Rica, fell from a window of the fifth floor of an apartment house today and was impanelled on a picket fence in front of the building. She was rushed to a hospital, where she died. Her husband is now in Costa Rica.

OIL INTERESTS CONFER WITH SEC'Y BRYAN

Washington, D. C., May 6.—A large delegation from New York representing American oil interests at Tampico asked Secretary Bryan today of the steps that had been taken to protect the oil property in the Tampico oil district, and urged Mr. Bryan to take immediate steps to safeguard one property thought to be in greater jeopardy than the others. None of the delegation would discuss the nature of the conference and Secretary Bryan would not disclose the name of the property for which special protection was sought.

FINLEY ASSUMES WHOLE BURDEN

Pleads Guilty to Technical Violation of Civil Service Law.

FINED FIFTY AND THE COSTS

Indictments Against Three State Officials Nolled On Prosecutor Turner's Recommendation—Democratic State Chairman Assails Turner, Who In Turn Attacks the Civil Service Act.

Columbus, O., May 6. — Declaring himself innocent of any charges of moral turpitude, William L. Finley, chairman of the Democratic state committee, admitted in common pleas court a technical violation of the state civil service law in soliciting contributions to the Democratic press bureau fund.

Prosecutor Turner, in a statement to the court, declared the violation not to have been a wilful one, but done through ignorance of the law, and recommended the minimum penalty of $50 and costs, which was assessed by Judge Rathmell.

All other indictments against Mr. Finley, together with those against State Superintendent of Banks Emery Lattanner, M. A. Goller, chief clerk in the state banking department, and A. V. Abernathy, secretary of the state tax commission, were nolled on Mr. Turner's recommendation. They never will be tried. Mr. Finley promptly paid his fine to the clerk of courts. Thus the civil service cases are closed.

In his statement to the court, Mr. Finley declared he was not familiar with the provisions of the civil service law and also said attorneys differ greatly as to its interpretation. He called attention to the fact that none of the acts complained of had been regarded as wrong, either legally or morally, in the past. He said the proceeds collected had been used by the press bureau to disseminate, both to Republican and Democratic newspapers, issues before the legislature and the laws which were enacted, together with their application.

Prosecutor Turner scored the civil service law, though he declared that as an official he believed it should be enforced upon all alike. He declared it to be revolutionary, so far as past practices in partisan politics are concerned, and branded it the work of "faddists," who had been more intent upon protecting themselves than others. He called attention to weak places in the law, but contended that the phrase under which the indictments were drawn, "or be in any manner concerned in," was broad enough to cover all eliminations that had been made in attempting to redraft the federal statute. "I feel satisfied that while the law was ignorantly violated, it was not an intentional or willful violation," Mr. Turner said.

In Mr. Finley's statement to the court he charged Mr. Turner with bad faith, with playing politics. His alleged humbuggery and insincerity were shown up, Mr. Finley said. He continued: "His bad faith in the whole thing is shown by his willingness to nolle indictments against public officials in order to fasten a plea of guilt on a technicality against me. That he brought the names of three public officers into disrepute and subjected their families to heartaches and worries for the purpose, as is now apparent, of making those indictments trading stock against me, is to be expected from him. He gloats on blood. A taste of mine may temporarily satisfy a perverted taste."

LOCATING FIRST DEFINITE BOUNDARY LINE IN ALASKA

Corps of Engineers Cut Way Through Mountains for 600 Miles in Establishing the First Definite Boundry Line Between Alaska and Canada —Natives Never Saw a Horse— Sun Shines for 24 Hours Each Day.

By Associated Press.

Sitka, Alaska, May 6.—Scarring a broad line across 600 miles of wilderness in the far North, in order that the possessions of the United States and Canada may have a distinct separation at every point, will be completed during the coming open season. The work has been in progress since 1907 under the direction of Thomas Riggs, Jr., civil engineer, representing the United States Alaskan Boundry Commission, and T. D. Craig, representing a similar commission of Canada.

Although the United States and Canada have been neighbors in the far North for over a half century, the exact dividing line between their possessions, especially, as to the northern portion, was, previous to this survey, indefinite and conflicting. Many disputes arising, the two governments decided, finally, through their commissions, that an absolute survey, clearly established and marked for all time, should be made along the one hundred and forty-first meridian, from the Mt. St. Elias Alps, on the Pacific Ocean to the Arctic Ocean, a distance of approxiamtely 800 miles.

The United States surveying party consisted of from 60 to 80 men each season since the work was undertaken Chief Engineer Riggs, himself a young college man, selected his aids from the hardiest classes—cowboys, forest rangers, prospectors, timber cruisers and frontiersmen, with a liberal sprinkling of engineers. New expeditions were organized each spring, although many of the men who started at the beginning have remained in the service up to the present time. It was the custom, too, to leave a few men in the north each winter to care for equipment and supplies.

The actual visible results of the six or seven years of efforts, a 20-foot vista cut, like a gigantic avenue, or lane, through all timber and brush districts, together with monuments set at intervisible points, from three to four miles apart.

The monuments erected are of two types, depending upon the importance of the locality. At prominent stream crossings and main points of travel the line-marker consists of a 5-foot aluminum-bronze shaft, weighing 300 pounds, set in 2,000 pounds of concrete. At less important points the monument is smaller, being designated as a cone, cast of the same metal, and requiring only 1500 pounds of concrete for the base. There are approximately 200 of these monuments along the 600 miles of boundary. The work of conveying the heavy materials for their construction, mostly on pack-animals, sometimes on the shoulders of the men themselves, was very slow and laborious.

This survey is declared by engineers to be the straightest of the world for the length encompassed. In speaking of it, one of the engineers said:

"The start was made from one of the desolate peaks of the Mt. St. Elias Alps, on the southern extremity. There we laid our course straight for the Northern Lights and thereafter swerved not so much as a hair-breadth—peaks, gulches, bottomless swamps—where ever the needle pointed there we went, one day cutting our way through brush-tangles, the next building a track across marshes, or crawling over rocks and through crevases."

Small steamers, plying the Yukon and Porcupine Rivers, co-operated with the expedition, but they were able to reach with supplies only a small portion of the actual route. South of the Yukon is a vast region, over 250 miles in extent, over which all supplies had to be transported, for the most part, on the backs of horses and mules, the commissary wagons being rendered useless by the terrible mud which follows the escape of frost from the soil in that region.

As might be expected, the greatest difficulties were encountered beyond the Arctic Circle. Following the rough scaling of the southern portion of the survey, the joint expeditions established their base at Rampart House, an ancient Hudson Bay station, on the Porcupine, from whence several dashes were made before the Arctic Ocean was finally reached.

When the steamers landed the topographers and their equipment at Rampart House, the native Indians were amazed at the drove of what they first took to be huge dogs, but later decided must be a variety of horneless caribou. Inquiry developed the fact that they had never before seen nor heard of the horse.

Almost at the water-line of the Arctic Ocean one of the larger of the monuments stands today, marking the international division. The final lap required to place it there was over a region fairly bristling with natural difficulties, although only about 100 miles across. The course led over the treacherous lakes and swamps of the Old Crow country, over the Ammerman Mountains, the Davidson and British ranges, thence down the long slope to the coast. On this dash, wild animals raided the caches and menaced the surveyors; ravenous mosquitoes settled upon them in boards, day and night; phantom lakes, mountains and cities lured and confused them, and over all blazed the summer sun of the Arctics, 24 hours each day.

WILLIAM L. FINLEY

Draws Fifty Dollars' Fine In State Civil Service Cases.

ENJOIN STRIKERS

Canton, O., May 6.—All the deputy sheriffs of Stark county were worked overtime serving injunction notices. Action brought by the McLain company and the Novelty Iron company against the molders' union and members to restrain them from acts of violence in prosecuting a strike at the plants resulted in a temporary injunction order of the court which prevents strikers from intimidating present employes.

SEAMAN LOST

Washington, May 6.—Admiral Badger reports that Frank C. Negedley, ordinary seaman on the Cassin, was lost at sea. His body has not been recovered.

VILLA DEFI

Torreon, Mexico, May 6.—A broad defiance of General Huerta and all his federal armies in Mexico was made public by General Villa in reply to proposals from General Joaquin Maas, federal commander at Saltillo, that the federals and rebels unite to avenge Mexico for the American occupation of Vera Cruz. Villa not only declined, but displayed his hatred of federal supporters, including General Maas, in plain terms. He declared Huerta and his advisers had invited disaster and were about to reap ruin.

VELASCO DESERTS FEDERAL CAUSE

Torreon, Mexico, May 6.—General Refugio Velasco wishes to join Villa's army, and offers to bring the 1,200 men from the Saltillo garrison to the rebel army if his request is granted. Velasco, according to a statement made at rebel headquarters, has notified Huerta that he no longer will support him, since the Huerta government refused to render any aid to Velasco's army during the battle of Torreon or since that battle. Negotiations are under way, it is said, which will result in Villa's combining the forces of Velasco with his own.

TELLS WHY LAW WORKS HARDSHIPS

By Associated Press

London, April 6—The recent discussion in England of the question of compelling professional women, particularly teachers and doctors, to give up their positions after marriage, has brought a remarkable statement from Dr. Marie C. Stopes, a well known scientist. There are, she says, three inevitable results from the policy of compelling women to give up their professions:

(1) It prevents admirable women of a certain type of character from marrying at all.

(2) It deprives the community of the work and the experience of another type of woman, who does not feel able to sacrifice her private life to her career.

(3) It leads other women, of more perfect balance, who demand the right to be both normal women as well as intelligent, to (a) wilfully and "dishonestly" concealing the fact of their marriage from their employers; or (b) living in union with a man without the legal tie of marriage.

As to the last alternative Dr. Stopes says: "My own experience of three years of marriage, in which I have discovered the innumerable coercions, restrictions, legal injustices and encroachments on her liberty imposed on a married woman by the community or sections of it, has brought me to the point of being ready to condone in any of my educated women friends a life lived (if in serious and binding union) with a man to whom she is not legally married. Three years ago such a course would have filled me with horror."

Only by treating married women properly, by leaving them the freedom of choice allowed to all other individuals, adds the writer, can innumerable evils be avoided.

DOG BITES FIVE

Akron, O., May 6.—A frenzied bull dog ran wild in the Perkins school, biting five children. The children bitten were: Alexander Walder, 8; Helen Baer, 6; Harding Christ, 10; Wendell Loomis, 9; Ralph Azor, 8.

Keep Boys Off the Streets

The heads of Washington families—the parents of young boys—should be more careful of the oft repeated admonition to keep the young boys at home after night.

This city, free of saloons and open dens of vice and iniquity is not nearly so dangerous a place for boys to roam the streets as many other places.

Indeed, it is doubtful if a safer place, large or small, could be found where boys would be less subjected to the temptations of the baser sort.

But that fact does not remove the responsibility which parents have, and should always be mindful of in the care of their sons.

Even if there are no open places from which, attractively garbed and, to the inexperienced, successfully disguised, vice alluringly beckons to the idle wanderer on the street, there is still the danger that the growing boy will form indolent loafing habits and listen to much of the unwholesome gossip, twisting and dwarfing his viewpoint to an extent which will make a successful life in after years impossible.

The growing boy should be occupied mentally and physically every moment of his waking hours. When not at work or study he should be at wholesome amusement, developing muscle and mind and storing up a reserve force to call upon in after years.

Hour after hour idled away in the evening, doing absolutely nothing, for either mind or body, makes of the growing boys, nuisances to those who have business on the streets and is the most certain way to result in a life of disappointment, if not worse, in after years.

Doing nothing is the easiest thing in the world for a growing boy to learn. The mind and the body of the growing boy are developing in capacity at a rate not fully appreciated by some older folks evidently, and it is the duty of some one—the parents first— to keep the mind and body exercised to their full capacity.

This city furnishes an abundance of opportunity for amusement to the boy. He can enjoy himself without being idle and without becoming a drifter and a street loafer.

It is almost criminal negligence for parents to allow their growing boys to seek amusement on the streets of the world outside—the home is the place, and if not at home, the boy should be in some place to which the home folks have directed his steps.

The number of young boys who are nightly found loitering about the streets has been the subject of discussion for years and years and it is not surprising that the same old subject should be once more to the front.

But the fact that the subject is one that has been long discussed and one to which attention has long been directed does not relieve against the duty which will be ever present as long as folks have boys growing up.

The warning to keep the boys off the street and to keep them amused and instructed is always timely and should never be met with anything by parents save the most serious consideration and the firmest determination to do their whole duty.

Keep the boys off the streets at nights.

Japan Slandered In Order to Make Dockyards and Steel Industries Busy

By Dr. TOYOKICHI IYENAGA, Lecturer For University of Chicago

IF a war scare is needed for the gratification of newsmongers or for the passing through congress of navy bills so as to make the dockyards and steel industries busy Japan is every time utilized for the purpose.

She has been DRAGGED IN EVEN IN THE CONTROVERSY ABOUT THE PANAMA CANAL TOLLS. Indeed, to further its designs, yellow journalism has not hesitated to use every wit and talent at its command for slandering Japan, has attributed to her ambitions she never dreamed of, heaped false charges upon her merchant class and besmirched the fair name of her womankind.

UNCONSCIOUSLY INSTILLED INTO THE MINDS OF THE INNOCENT AND THE IGNORANT, THESE FALSEHOODS WOULD TEND TO SHAPE THEIR OPINION AND TO ALIENATE JAPAN FROM THEIR SYMPATHIES. HOW GREAT HAS BEEN THE EXTENT OF THE ALIENATION MIGHT SOMEWHAT BE GAUGED BY THE CHANGE THAT HAS COME UPON THE TONE OF PUBLIC OPINION FROM THE TIME OF THE RUSSO-JAPANESE WAR, WHEN JAPAN WAS OVERLOADED WITH PRAISE, TO THE TIME WHEN THE ALIEN LAND BILL WAS ENACTED IN THE FACE OF THE STRONGEST PROTESTS OF THE WASHINGTON GOVERNMENT.

IS IT NOT TIME FOR RIGHTEOUS AND STRONG ORGANIZATIONS TO ASSERT AND EXERT THEMSELVES FOR CREATING A SOUNDER PUBLIC OPINION?

Poetry For Today

DELIGHTS OF TRAVEL.

Weary, o'er ledger and journal
Leaning throughout the day,
I dream of delights supernal
When I shall be up and away.
This evening the joys of travel
Most certainly I shall seek,
These certainly I shall have, all
On fifteen dollars a week!

Six days at Atlantic City
I think ought to be enough;
I'll then "go across"—what a pity
If the weather should turn out rough!
A fortnight I'll stay in London,
Then hurry to gay Paree;
Its sights all one by one done,
The rest of Europe I'll see.

Down the Riviera drifting,
Absorbing its vared joys,
My plans without protest shifting,
When any experiences cloys—
Ah, yes! I am growing bolder;
I'll essay a wilder flight;
By railroad and steamship folder
I'll go round the world tonight!
—Chicago News.

GEN. AXLINE ILL

Zanesville, O., May 6.—Physicians at the bedside of General H. A. Axline, former commander of the Ohio G. A. R., announced that the veteran's condition is extremely critical.

Dr. John H. Axline of Lancaster, brother of the general, was stricken with paralysis on the steps of the Good Samaritan hospital as he was entering to visit his brother.

LEAVING BRAZIL

Para, Brazil, May 6. — Colonel Roosevelt and his son Kermit arrived here on the steamship Dunstan from Manaos. They will sail Thursday for New York by way of the Barbadoes. At the latter place the party will separate, the colonel proceeding to New York, while Kermit will take a steamer for Lisbon, and will afterwards proceed to Madrid, where he is to be married early in June to Miss Belle Willard, daughter of the American ambassador to Spain. Colonel Roosevelt will arrive in New York May 20.

BANDITS TAKEN

Douglas, Ariz., May 6.—Refugees from the El Tigre country in Sonora tell of the wounding and capture of four bandits, one of them an American, by a Mexican rancher, Pedro Lopez, at Chuchuta, Sonora. A band of robbers attacked the Lopez ranch and he gave battle single-handed. Lopez finally drove off the band with the exception of four who were wounded. These he took to El Tigre and turned them over to the authorities.

OFFICIAL SUCCUMBS

Newark, O., May 6.—Dr. J. M. Wright, 56, member of the Licking county liquor license board, died at his home here after a short illness. Dr. Wright was a Bull Mooser and his appointment as license commissioner aroused bitter opposition.

FOR DRUG VICTIMS

Columbus, O., May 6.—Governor Cox, speaking before the Ohio State Medical association, was loudly applauded when he advocated the establishment of a department by the state government for the care of victims of the drug habit.

HASKELL IS DEAD

Washington, May 6. — W. C. Haskell, superintendent of weights and measures of the District of Columbia, and former chief of engineers of the Ohio militia, died here, aged 68. For four years Mr. Haskell was United States marshal of northern Ohio.

EFFECTIVE WORK

MARRY AT LONG RANGE.

Woman In Holland and Man In Wisconsin Are Curiously Wed.

Superior, Wis. — Johannes Jacobus Kuyk, after a wedding ceremony preliminaries for which lasted several months, is a married man. His bride was Miss Maria Louise Grotendorst of Holland. They were married by mail.

The bride is expected to arrive from Holland June 13. Final papers uniting the couple have arrived from Holland. A number of officials took part in the ceremony.

When Mrs. Kuyk arrives she will be accompanied by Miss Nellie Rees of Holland, who is to become the bride of G. Kuyk of Grand Rapids, Minn., a brother of the Superior man.

Have Color in Your Cheeks

Be Better Looking—Take Olive Tablets.

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results. The Olive Tablet Company, Columbus, O. advt

HISTORY OF MARTHA WASHINGTON WILL

Morgan Tells How Document Came Into His Possession.

Washington.—The first authoritative explanation of the manner in which J. Pierpont Morgan came into possession of the Martha Washington will, to regain the custody of which the governor and citizens of Virginia have threatened legal measures, was given out by Mr. Morgan.

"The will of Martha Washington was taken from the Fairfax courthouse in 1862," Mr. Morgan said, "by a colonel of the Union army, who rescued it from destruction by his men. This officer retained it in his possession for thirty years and shortly before his death in 1892 gave it to his daughter who, thirteen years later, in 1905, sold it to the late J. Pierpont Morgan.

"This account she related at the time of the transfer. She stated that her father's regiment garrisoned Fairfax Court House in 1862 and that he had headquarters in the courthouse. Another command had previously occupied the place, and the men had broken open the safes. The floors were littered with papers which the colonel's men used in making fires. Entering headquarters one day he found his men shoveling papers into a stove. He stopped them, and in examining the papers found the Martha Washington will.

"He carefully preserved the document throughout his life, and on the eve of his death gave it to his daughter."

The correspondence shows that Mr. Morgan suggested to the governor of Virginia two plans for the preservation and exhibition of the Martha Washington will. One is that Mr. Morgan would present the will for public exhibition at Mount Vernon, the other is that the will be preserved by the congressional library at Washington. With both of these suggestions Mr. Morgan couples another, that George Washington's will, now Virginia's property, be exhibited with it.

HAS KEY TO ALL LANGUAGES.

French Teacher Invents System of International Correspondence.

Paris.—A teacher named J. Orsat has invented an ingenious system of international correspondence. Every word in the French language is referred to by a number, and a corresponding number is given to the same word in all other languages.

Thus a merchant desiring to write to a foreign customer need only turn the words of his own language into numbers, and the customer can retranslate the numbers into the words of his language. Dictionaries based on this system in all tongues are being prepared.

M. David, the minister of commerce, has given his approbation to the idea. M. Orsat does not believe in the practicability of a spoken universal language.

Playing a Sure Thing.

"You say your boy went to New York to be a speculator?" said the neighbor.

"Yes," replied the proud mother. "He may go broke."

"No. He isn't that kind of a speculator. He's a ticket speculator."—Washington Star.

An Ulterior Motive.

Willie (whispering)—Say, Jimmy, why don't you show the teacher your mumps so that he will let you go home?

Jimmy—No fear. I wants the whole school ter ketch 'em, so as I can have some of the fellers to play with.—Pearson's Weekly.

A Stubborn Cough is Wearing and Risky.

Letting a stubborn cough "hang on" in the spring is risky. Foley's Honey & Tar Compound heals raw inflamed surfaces in the throat and bronchil tubes—makes sore, weak spots sound and whole—stops stubborn, tearing coughs. Refuse substitutes. Blackmer & Tanquary. adv.

FARMERS PREPARE FOR CORN PLANTING

Just as soon as the weather permits the planting of corn will occupy the attention of Fayette farmers, and while a great deal of planting is expected to be done this week, planting will probably not become general until the first of next week.

A few have already started the planter, but stopped when the recent cold weather came.

The acreage in this county will be up to the average this year, it is believed, and never before have the farmers picked their seed corn with greater care. A large number have tested the corn to be sure of its germinating powers. Little difficulty will be experienced in selecting corn that will grow, as it was harvested in splendid condition.

COLORED BURGLARS GIVEN TERM IN THE PENITENTIARY

John Curtis and Leonard Wilson, Indicted For Burglary and Larceny, Enter Pleas of Guilty and Are Sentenced to Indeterminate Term in Penitentiary—$4.80 Worth of "Index" Plug Was Amount of Theft.

Within the next day or two John Curtis and Leonard Wilson, the two colored men who have been cooped up in the county jail for more than two months for burglarizing the C. H. & D. station at Fairview, will be citizens of the big Ohio penitentiary.

The pair were indicted by the grand jury Tuesday evening, and Wednesday morning were taken before Judge Carpenter to plead to the indictments. After some little hesitation both entered pleas of guilty to the charges, and Judge Carpenter pronounced sentence, giving each an indeterminate term in the Ohio penitentiary at hard labor. The minimum term is one year imprisonment.

When asked if they had anything to say before sentence was pronounced, each of the men expressed deep regret that the affair had taken place and said they believed the punishment would learn them a lesson. Each of the men asked for leniency, "if the court saw fit to grant it."

The pair will be escorted to the state prison within the next day or two, and before they are released they will probably learn the lesson they suggested.

Their offense consisted of breaking into the C. H. & D. station at Fairview on the night of February 4th, and stealing $4.80 worth of "Index" tobacco—some 12 pounds.

It will be recalled that the pair were later arrested in Chillicothe and returned to this city.

A day or two before they burglarized the station, they were under arrest here for forging several checks for small sums, but were released upon their promise to get out of town.

During their term in jail they have been model prisoners. They claim to hail from Baltimore, Md.

JOHN CULLEN DIES SUDDENLY

Death summoned another well known and highly respected resident of this city, Tuesday evening about six o'clock, when Mr. John Cullen succumbed to an attack of heart trouble and passed away within a few moments at his home on South North street.

Mr. Cullen, who was 57 years of age and had been employed by the Dahl-Millikan Company for more than half his life-time, had been subject to heart disease for some time.

Tuesday morning he was suffering from heart trouble, and did not go to work, but lounged about the house most of the day, and death came suddenly at six o'clock.

The deceased has a great number of friends who are cast down with sorrow over the loss of one they had highly esteemed.

He leaves a widow and three children, Mrs. C. E. Link, of Bloomville, Ohio; Robert Cullen, of Columbus and Charles, of this city.

Funeral services will be held at St. Coleman's church Friday morning at nine o'clock, and interment will be made in the St. Coleman cemetery.

WOMAN INJURED BY GASOLINE ENGINE

Mrs. L. E. Hargrave, of Sabina, narrowly escaped serious injury, Monday, when her clothing became entangled in a gasoline engine, which was used in operating a washing machine, and she was hurled to the floor and badly bruised before the engine became clogged by the clothing and stopped.

Her screams brought the neighbors, who released her from the engine. The unusual accident is a warning to women who have occasion to pass near gasoline engines while they are in operation.

ERRING YOUTH IS STILL AT LARGE

Orville Stooker, the youth who has stolen his sister's hat and bracelet, a set of harness from his father, and even the carpet off the floor of his home, is still at large.

During the past few days the police have used considerable energy in trying to locate the young man, but he has successfully eluded them from time to time, although he is still in or near the city.

He has proven himself a sprinter of no mean ability, and as a dodger has no equal in the city.

BOYS LEFT HOME WITH WIEDER CO.

A youth who ran away from his home in Wellston and came to this city with the Wieder Amusement Co. which is showing here this week, was located and sent home Tuesday evening.

Another Wellston man was here looking for his erring son who was supposed to have come here with the amusement company. He failed to find the lad.

BUILDING INSPECTOR ORDERS MINOR CHANGES

An order from State Inspector of Workshops and Factories Kerns, has been received by the Board of Education and Mayor Coffey, in which many minor changes are ordered at the new High school building.

The order comes from a recent inspection of the building, made by Lester Redding, architect, and Deputy Building Inspector Callahan.

Railings along all stairways are ordered, and some changes in the ventilating system are recommended.

SHOW IS CLOSED PROGRAM CHANGED

The "girls in red", one of the attractions of the Wieder Amusement company's, has been abolished, the management acting under the instruction of Chief Moore.

Wednesday morning the men made application for permission to put on a vaudeville stunt with "mild" dancing in connection. No objection was made by Chief Moore, as long as the show is not of an immoral character.

LAID TO REST WITH SIMPLE SERVICES

The funeral services of Miss Emma Millikan, who died at her home in Lexington, Ky., Saturday, were held at the residence of her brother, Mr. W. W. Millikan, Tuesday afternoon at two o'clock.

The home was filled with relatives and friends, and Mrs. Bertha S. Miller read a simple Christian Science service, Miss Millikan having been a member of the Christian Science church.

A profusion of beautiful flowers, many having been sent from the Kentucky home, surrounded the quiet sleeper.

Following the brief service a number of relatives accompanied the family to the Washington cemetery for the final services.

The pall-bearers were: Hon. A. R. Creamer, Messrs. D. S. Craig, Geo. Hitchcock, Fuller Hess, Gerrie Spragg and Ray Maynard.

Coming from a distance to attend the funeral were the sister, Miss May Millikan and friend, Miss Pointer, of Lexington, Ky., and nephew, Mr. W. R. Wood, of Cincinnati.

INTERESTING ANNOUNCEMENT

Rev. F. E. Ross has just received the announcement that Bishop Wilbur F. Thirkield, resident Bishop of New Orleans, La., will preside at the session of the Ohio Annual Conference, to be held in Grace M. E. church this fall.

Rev. Thirkield is one of the younger bishops elected at the last general conference and is recognized as a man of fine personality, broad scholarship and splendid administrative ability.

The news of his selection as presiding bishop of this conference will be learned with no small interest.

WOMAN FORGER IS UNDER ARREST

Mrs. Minnie Rutherford Touhy is under arrest in Chillicothe for forging a check upon John Pleasant, of Richmond Dale, for the sum of $200.

The woman succeeded in getting the money at the Ross County National bank, where she gave the name of Mrs. Fred Fuller. When the forgery was discovered the woman was soon under arrest, her "tango" clothing making it an easy matter to locate her.

We Fit All Sizes

ALICE NIELSON AT MEMORIAL HALL

Popular Alice Nielson, beloved alike by the comic opera and grand opera adherents of today, remembered for the "Fortune Teller", "The Singing Girl" as well as "Faust" and "La Boheme" is coming to Memorial hall, Columbus, Monday evening, May 11, as the concluding artist of the T. T. Frankenberg series of concerts.

In order to meet a popular demand this concert will be given at popular prices, thus opening it to the largest number of music lovers.

Miss Nielsen has arranged to sing a number of well known selections including arias from "La Tosca" and "Madam Butterfly."

Miss Nielsen is so well known that the comment of critics is superfluous, but it is reassuring to be informed that from Milan to San Francisco they unite in ascribing to her the highest praise, and state that never before has her voice shown the wonderful beauty, color and brilliancy it possesses at the present time.

Special parties are forming in Newark, Granville, Westerville, Delaware, Lancaster and other cities near Columbus assuring a representative and cosmopolitan audience.

Seat reservation can be secured by addressing T. T. Frankenberg, Columbus, Ohio.

FAYETTE BANKER TELLS EXPERIENCE

That it pays to transact business during business hours is the assurance of a Fayette county banker, who has been engaged in banking for more than 30 years.

"During my entire time in the banking business I have never lost on a loan made to a man who applied during business hours, and after a few experiences with the fellow who insisted on transacting business after business hours, I have quit loaning to the man who cannot appear during banking hours".

Continuing the banker said: "The man who cannot follow the regular methods by observing banking hours is not only a nuisance, but is usually careless and not the kind of a man that one can tie to and be safe. Beware of the man who wants to transact business outside of business hours."

ERECTING HUGE NEW SMOKESTACK

F. M. Rothrock is erecting a new brick smokestack for his laundry. The new stack will be 60 feet in height and will supplant the present sheet steel stack which is 38 feet in height.

By increasing the height of the stack he expects to still further eliminate the smoke which pours from the stack, and which frequently sweeps down upon the surrounding neighborhood. By increasing the height of the stack it is believed the smoke will be carried above the surrounding buildings.

W. R. C. KENSINGTON.

The W. R. C. Kensington meets with Mrs. G. W. Inskeep Friday afternoon at two o'clock. All members come and bring knitting.

A $50,000 REAL ESTATE DEAL CLOSED

T. C. Jamison, the local real estate dealer closed a deal Monday with Hon. Ballard B. Yates, of Williamsport for the sale of the old Jonathan Chaffin farm, containing 378½ acres

The farm was owned by the heirs of Joseph Myers, the east line of farm is within one mile of New Holland; it is one of the best farms in that section of the state for grazing purposes as the north fork of Paint creek flows through the land.

The price realized for the farm was $50,000.

It is said by competent judges that the farm was purchased at a bargain as there is a big per cent of the farm that contains fine tillable soil.

This deal is a feather in the cap of Mr. Jamison who only recently removed to Circleville from that county.—Circleville Herald.

WILL EDUCATE NATIVE WOMAN

The Epworth League of Grace M. E. church, at a cabinet meeting held last night in the church parlors, unanimously voted to appropriate money toward educating a native woman in India for missionary work.

It was the general feeling of members that the League assume an obligation of this kind, appropriating money each year toward such a fund.

DR. CHANEY IS RE-ELECTED SUPT.

Dr. N. H. Chaney, formerly of this city, has been re-elected superintendent of the public schools of Youngstown, Ohio.

He has been in Youngstown several years, and has proven himself a splendid person for the position he holds.

LEADS NEIGHBORS FOR BIGGEST CORN

Chas. Burnett is probably the pioneer corn raiser for the season, as he has a field of corn planted April 28th that is between two and three inches in height.

The recent frosts did not damage the tender stalks. So far as known it is the biggest growing corn in the county.

$15 REWARD IS OFFER FOR VIOLATORS

The Fayette County Fish and Game Protective Association has offered a reward of $15 to be paid to anyone who furnishes information which leads to the arrest and conviction of persons who hunt or fish out of season, or use illegal methods of catching fish or game.

NEW TICKET AGENT

Mr. Burnette Hyer, son of Dr. and Mrs. A. A. Hyer, has resigned his position with the U. S. Express Company in Columbus, and is now ticket agent at the B. & O. station in this city.

MEDIATORS NAME NIAGARA FALLS

Peace Conference Will Be Held There Beginning May 18.

WASHINGTON NOT OPTIMISTIC

No Indication That Carranza Intends to Participate In Proceedings and Administration Officials Acknowledge That It Looks Very Much as If Mediation In Mexico Will Be a Failure.

Washington, May 6. — The mediation conferences for the settlement of the Mexican situation will be held at Niagara Falls, Canada, beginning May 18. This was announced officially by the mediators.

While General Carranza, owing to his refusal to suspend hostilities in Mexico, has practically been eliminated from the negotiations, the three South American mediators have left a loophole through which the Constitutionalist leader may reverse his decision and be accepted in the peace party. There is no indication that Carranza intends to yield.

The elimination of Carranza has seriously threatened what little likelihood of success there was in the mediation program. This was apparent on all sides here. Optimism is at the lowest ebb since the peace proceedings were inaugurated, and officials who heretofore have been hopeful acknowledge for the first time that it looks very much as if mediation in Mexico will be a failure.

This disquieting view of developments in Washington was intensified by information from Vera Cruz which indicated that the Mexican federal troops under General Maas were proceeding rapidly with their preparations of defense. It was reported to the war department from Vera Cruz that the Mexicans had mined the railroad tracks from that port to Mexico City, preparatory to destroying the road in the event of the American forces attempting a march on the capital. The mines are said to be located about half a mile apart and Mexican soldiers have been detailed to light the fuses in the event of hostilities.

General Funston has already reported that there are about 15,000 Mexican troops between Vera Cruz and Mexico City. The mining of the railroad tracks and the throwing up of other defenses are obviously strengthening the position of Huerta's men and are a source of considerable worry to General Funston.

Army officers in Washington feel that the task of marching to Mexico City, if that shall finally be undertaken, is daily being made more difficult.

The mediators in their note to Carranza disclosed officially for the first time that they feel that "all the difficulties which have contributed toward the present situation in Mexico must be the subject of consideration in the mediation proceedings." They make it apparent, too, that they deem a suspension of hostilities indispensable to the proceedings, and they notify Carranza that if he does not agree with them on this point they will be compelled to withdraw their invitation to him to participate in the coming conference.

CHARTER WINS BY THOUSAND

Columbus, O., May 6.—A new charter was voted for Columbus yesterday by a majority of 1,042. Only one-third of the normal vote was polled.

The city will elect its first officials in November, 1915, to begin their terms Jan. 1, 1916. A nonpartisan ballot, with the elimination of party designations, is provided. Instead of the election of councilmen from wards, seven councilmen will be chosen at large.

In the election of the mayor, city attorney and auditor, the preferential system of voting is adopted. Under this method primary elections are eliminated. The city treasurer is appointed by council. The initiative, referendum and recall have been provided. Terms of all elective officers have been extended from two to four years. Civil service regulations, supplementing prevailing statutes, have been incorporated in the charter. A division of public welfare, a public defender and a board of purchase are to be established.

BOAT DRIFTING WITH 19 MEN

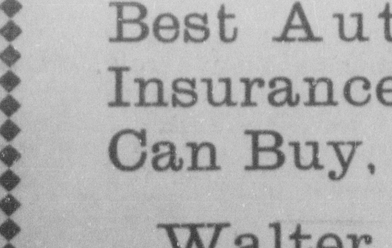

Thirteen Victims of Ship Fire Are Rescued at Sea.

Boston, May 6.—The freight steamship Columbian of the Leyland line, bound from Antwerp for New York, caught fire and was wrecked by a series of explosions in her hold when 150 miles south of Sable island. A boat containing 13 of her crew was picked up by the steamship Franconia, one of the vessels which responded to the wireless call from the steamer Seydlitz, the first craft to sight the burning Columbian. Another boat containing 19 men is being searched for by the Franconia. Chief Steward Matthews of the Columbian was one of the men in the boat picked up by the Franconia, but he died just after being rescued. No mention is made in the Franconia's wireless message to Charles Stewart, agent of the Cunard line here, of the Columbian's captain, and it is feared he perished with his vessel.

The survivors suffered terribly during 40 hours' exposure in an open boat. Their exhaustion was so great that it was impossible to obtain a coherent story from them several hours after they were picked up.

Want ads are sure winners.

Villa's Troops on the March.

THESE are views of Villa's rebels. One of them shows some of his infantry marching through Chihuahua on the way south. They later took part in the siege and capture of Torreon. The other shows another troop of rebels with the advance guard near Torreon. The battle of Torreon was the last big conflict of the revolution before the Tampico incident.

CONFER ON IRISH CASE

Premier Asquith Hopes For a Peaceful Settlement.

London, May 6. — Conferences between members of the government and the Irish leaders in reference to a settlement of the home rule question which were expected to follow the conciliatory speeches in the house of commons April 29, have apparently begun. It is reported that Premier Asquith, Winston Churchill Bonar Law, leader of the Unionists, and Edward Carson, leader of the Ulster Unionists, met privately today. The Irish Nationalists were not represented at the meeting.

Replying to a question on the home rule settlement in the house of commons, Premier Asquith said the government was taking steps which seemed to him to be most likely to conduce to a peaceful settlement. He added that the house of commons would ultimately have control of the matter.

MAY CALL STRIKE OF OHIO MINERS

Indianapolis, May 6.—A committee, which not only will report upon the Colorado strike situation but also will consider the feasibility of a general strike in the coal mining industry, was appointed by the international executive board of the United Mine Workers of America. William Green of Ohio is a member of the committee.

UPTON WRITES ROCKEFELLER

New York, May 6.—Upton Sinclair sent a letter to William Rockefeller requesting an interview with him on the subject of the miners' strike in Colorado. In asking for the interview he took occasion to say again that he has had and will have nothing to do with the firebrands who have urged violence against members of the Rockefeller family.

HOUSE WANTS 2 BATTLESHIPS

Washington, May 6.—By a vote of 148 to 91 the house went on record informally in favor of an authorization for two big battleships in the pending naval appropriation bill. The fight over the battleships was conducted with the usual bitterness.

Dull Feeling—Swollen Hands and Feet—Due to Kidney Trouble.

Your kidneys need help when your hands and feet thicken, swell up, and you feel dull and sluggish. Take Foley Kidney Pills. They are tonic, stimulating and strengthening and restore your kidneys to healthy normal action. Try them. Blackmer & Tanquary. adv.

WILSON TO SPEAK

Washington, May 6. — It was definitely announced that President Wilson will attend the memorial exercises at New York Monday for the sailors and marines killed in the occupation of Vera Cruz. The president will leave Washington Sunday night, arriving in New York in time for the exercises at noon. He will deliver the only address. Secretary Daniels has invited Admiral Dewey, Secretary of War Garrison, Assistant Secretary of the Navy Roosevelt and the aids to the secretary of the navy. These will leave here Saturday night on the president's yacht, Mayflower and will meet the Montana, bearing the dead heroes off the Virginia capes Sunday.

MISS MARY GARDEN SUED BY WOMEN

New York, May 6.—Papers filed in the supreme court show that before Miss Mary Garden sailed for Europe she was served with a summons in a suit brought to recover $1,000 because she failed to keep an engagement to sing at a concert at Columbus, O., in January, and didn't even take the trouble to send word that she wouldn't be on hand. The suit is brought in the name of Ella May Smith as president of the Women's Music club of Columbus.

DEMOCRAT TO GO TO PERSIA

Washington, May 6.—It is understood in official circles here that Charles W. Russell, American minister to Persia, will be recalled and a Democrat appointed to fill the post. The state department officials refused to deny the report. Russell is a hold-over from the last administration, receiving his commission from President Taft Dec. 21, 1908. He is a native of West Virginia.

OLDEST TWIN IS DEAD AT 95

His Brother, at Bedside, May Not Survive Shock.

HAD LONG LIFE TOGETHER

Last Family Reunion on Christmas Day Attended by Scores—They Were Both In Excellent Health Then--Remarkable Parallels In Life of Two Men—Each Had Eight Children.

Babylon, N. Y.—Samuel Muncy, one of the oldest twins in the world, died at his home here in his ninety-sixth year. Samuel and his brother William were born on the old farm in Babylon on Christmas day, 1818, and lived there ever since.

Last Christmas, when the twins celebrated their ninety-fifth birthday, there gathered about them at Samuel's home thirty of their many descendants, including sons and daughters, grandchildren and great-grandchildren. The twins sat side by side at the dinner table. On one side sat the children of Samuel and their children's children, and on the other sat the progeny of William.

Photo by American Press Association.

THE MUNCY TWINS.

Samuel was not in the best of health then, and he grew weaker and weaker, until he succumbed. William was at his bedside, and it is feared that the shock of his brother's death will be more than he can endure. The two saw each other daily and the companionship of the two was keen.

Both men were tall and stalwart. It was only until recently that they could not devote much time every day to some sort of labor. Together they took walks, and the friendship between the two was just as keen as when they went fishing or hunting together as boys.

The two men were proud of their health and longevity. They attributed their long life to work in the open air and abstinence from alcohol and tobacco. They never gambled. Both were ardent Prohibitionists and argued hard for the cause. They voted for James G. Blaine for president, but since then they have been in the Prohibition party.

The twins were descended from a long line of prosperous farmers. The farmhouse in West Babylon in which they were born is probably the oldest building on Long Island. The twins had two brothers and one sister, but they outlived them all by many years.

The twins married about the same time. Samuel married Rebecca Sammis of Babylon when thirty years old, and shortly afterward William married Mary E. Fleet of Brooklyn. They had been widowers for many years. Both men were blessed with eight children each. Up to a few years ago four of Samuel's children and seven of William's were alive. Just how many descendants of the two are alive today it would be hard to calculate.

At the time of their respective marriages each built a home for himself on the old Muncy farm. After the death of their wives the two went to live together, but they decided finally it would be better for Samuel to have his daughter, Mrs. Samuel Smith, with him, while William went to live with his son, Smith Muncy, near by.

The two men owned a great deal of property on Long Island. Both believed they would celebrate their one hundredth anniversary together, and they decided they did not want their children to wait for years to enjoy things, so they parceled out the property.

There was some talk shortly before their last birthday of hiring a special car and sending them to Washington to see President Wilson, but the twins felt they were too old to make the trip, and the project was abandoned.

Go Without Saying.

Among those things that go without saying may be included the language of deaf mutes.—Puck.

Comfort Comes Instead of Pain

Rheumatism, Lumbago, Soreness of All Kinds, Quickly Rubbed Out When You Apply Speedway.

Pain leaves like magic when you apply Speedway. You just seem to smooth all the trouble out, and instead of hurting while doing it, there is a cooling, soothing sensation right away. Remember—Speedway is doing its work the minute you put it on, even though it cannot torture you, or harm the most tender skin, or stain the flesh or daintiest fabric.

You can absolutely depend upon Speedway going right to the spot and doing all we claim for it. If you're not satisfied, the druggist returns your money.

You get delightful relief the very first rub. You run no risk, and our advice to you is to get a large bottle right away if you want to travel "the road to quick relief."

Speedway was discovered and used for many years by an old Scotch physician. It was brought to America, and is now offered to all who suffer from rheumatism, lumbago, sore throat, bruised tendons, tired feet, sprained muscles—any muscular soreness whatsoever.

Why suffer when Speedway is at your service to relieve you? A free book with each bottle gives full directions for all uses. Get a bottle today from Blackmer & Tanquary, Christopher or Baldwin and know the complete comfort that this marvelous remedy gives.

WOMAN SUFFRAGE AND PROHIBITION

Resolutions Propose Two Constitutional Amendments.

THEY APPEAR IN THE HOUSE

Judiciary Committee Submits Without Recommendation Two Mooted Questions For Such Action as the Representatives May See Fit to Take—Advocates of the Measures to Demand Action.

Washington, May 6. — Resolutions proposing two constitutional amendments that have been the subject of agitation in the United States for years were reported to the house by the judiciary committee. One of the amendments contemplates national prohibition of the liquor traffic and the other provides that suffrage shall be conferred on women.

The committee made no recommendation on either of these big proposals. It simply submitted them for such action as the house may see fit to take.

Present indications are that a vote will be forced in the house at this session on the prohibition amendment. Doubt is expressed that the senate, even if the amendment is adopted by the house, will concur at this time. If the Democratic leaders stand by their guns there will be no action at this session on the suffrage amendment.

At a caucus of the house Democrats held early in the winter, a resolution was passed expressing it to be the sense of the dominant faction that no action should be taken on equal suffrage at this session. Both issues, though, are "loaded" with the possibilities of political trouble, and there is no telling what will happen when congress once begins to feel the pressure of organized campaigns.

The amendment relating to the liquor traffic gives congress the power to regulate the manufacture and sale of intoxicating and other alcoholic liquors on ratification of the amendment by three-fourths of the states. The suffrage amendment provides that no citizen of the United States shall be deprived of the right to vote on account of sex. The prohibition amendment is pending in another form in the senate. Whether it will be reported in that body may or may not depend upon action by the house. This amendment particularly is a cause of great worry on the part of senators and representatives who are candidates for re-election this year.

Despite the caucus action of the house Democrats in sidetracking the suffrage amendment, that question is by no means dead for this session. Its advocates intend to press it for action with all the energy for which they are noted, and they are in an optimistitc frame of mind.

The suffrage amendment in the form in which it was reported by the house committee was defeated in the senate a month or two ago. It was reintroduced in the senate in a modified form, was reported on April 7 and is now on the calendar awaiting action.

THE TIGERS DROP ONE

BIG AGRICULTURAL LAND OPENING!

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open **Twenty Thousand Acres of rich, Southern Georgia Land,** which is admirably adapted to the growing of celery, sweet and Irish Potatoes, canteloupes, water melons, corn oats, cotton, hay—in fact all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classications prescribed by us you are now offered an excellent opportunity to break away from the drudgery and toil of a suall wage, or working for the benefit of landlords, and go back to a land of plenty to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefitting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to $1,268.45, and that one acre of well-cared-for paper shell pecans in full bearing should net its owner as high as $500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful and invigorating, and there is an ample rainfall of 51 inches per year.

Our Aim is For Mutually Beneficial Results

As we are extremely desirous of having settlers locate on this property and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlanta Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have **"money-making afterward"** considerations in this liberal-minded opening similar to those of the Northern Pacific and other railroads when they granted their lands and we expect to benefit thereby as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most-up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend—for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted as soon as possible.

With the ever increasing population of this country there is no corresponding increase of the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

SOUTHERN GEORGIA RAILROAD LAND DEVELOPMENT BUREAU,
COLORADO BUILDING, WASHINGTON D. C.

Southern Georgia Railroad-Land Development Bureau,
Washington D. C.
Registration Department:

I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish you with the correct answers to the following questions:

Name.....City.....

State.....Street or R. F. D. No.....

Age.....Married or Single.....Widow, Widower or Orphan.....Occupation.....

Nationality.....Do you now own over ten acres of land in the United States?.....

If my application for registration is accepted please send me, without obligation, further and complete information and particulars, including maps of the land, showing its exact locacion on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.

Very Truly yours,

.....Signature

AGAINST FREE TOLLS.

Colonel George W. Goethals has added his voice to the protest which is going up against granting free tolls to American coastwise trading ships passing through the Panama canal. The injustice of taxing the people of the United States in order that a few favored ship owners may secure an increased profit is apparent to all thinking people and it will be the political death warrant of all congressmen and senators who vote for this gigantic steal.

Every ship passing through the Panama canal should pay toll. The builder of the canal and men conversant with the facts in the tolls controversy have arrived at the same conclusion. The canal was built with funds furnished by all of the American people and if there is any benefit to be derived from it, it should be shared by all. The farmer in the prairies of the west, the miner and the ranchman has paid proportionately with the dwellers along the seaboard, the ship owners and the merchant of the seaports. If there is any justice, the ships using the canal will be charged tolls and the revenue will be applied by the government to benefit all of the American people.

The attempt to mask a gigantic steal under the pretense of patriotism will not suffice the advocates of ship subsidies in the present case. It is admitted that America has the right to permit her ships to pass duty free if she so desires. If the warships are sent through the canal or any other government-owned vessel passes through the locks, no duty should be charged, but all private boats should be compelled to pay toll whether they fly the flag of this nation or that of a foreign country. Profit knows no country and the dollar sign has succeeded the flag in commercial enterprises. Any enterprise purely for private gain should not be shown special favors by the government, and an appeal to patriotism in order that a few men may become multi-millionaires is anarchy.

The provision providing for free tolls for American ships should be repealed. The day of subsidies is gone by in this country. Special interests are no longer to be served against the interests of the whole people, and the free tolls provision is a measure at once unjust and unpariotic. Colonel Goethals and those fighting the measure deserve success.—Springfield Sun.

VALUE OF GOLD

On the first page of the Sun, Sunday morning, at the top of the sixth column, was a dispatch from Helena, Mont., announcing the discovery of ore (gold, I suppose) 80 per cent pure, worth $30,000,000 a ton.

Now, gold is worth $20 a troy ounce. Its coinage value is $20.67 plus. A pound avoirdupois equals 16 ounces avoirdupois, but only 14 7-12 ounces troy, the latter ounce being a little heavier than the former. A ton of pure gold (2,000 pounds avoirdupois, or 29,166 plus ounces troy) is worth a little over $583,000. A ton of ore 80 per cent pure would be worth a little over $466,000. This $30,000,000 is nearly 70 times too much. Does the mine yield radium?

This recalls a wild rumor that got into circulation during the Boer war that President Kruger had left, taking with him over a million sterling in gold. I forget the exact sum named, but it would have weighed about 10 tons. The report did not say whether he carried it in his waistcoat pocket or in a suitcase.—New York Sun.

FARM AND GARDEN

Most Important Product.

What is the most important product of Ohio farms? Is it corn? Or, is it live stock? The authorities at the College of Agriculture, Ohio State University, think that neither of these is the leading crop. They are convinced that another product of the farm is more important and are now arranging to give it their attention.

This most important product of the farm is nothing less than the young men and women who grow up there. To surround these young people with the best conditions both morally and socially is the aim of certain men and women in each community. Dr. W. O. Thompson, President of the University, invites these rural leaders from all over the state to come together at Columbus and discuss their common problems. The sessions will be held at the Ohio State University from August 10th to 14th and will be called "Country Life Week." In addition to the round table discussions there will be several addresses each day by men of state and national prominence. A feature will be reports of definite community betterment. The reports will be made by ministers and laymen who have participated in the incidents which they relate.

Meets With Favor.

Many people are reluctant to take up new things. However, Mary C. Phillips, superintendent of the schools at Mallet Creek, Medina County, Ohio, is not one of them. When she came to her present position three years ago, she saw the need of some instruction in domestic science for the girls of her high school. Public sentiment, as might be expected, was not all on the side of the new departure.

Although the school board had a good many misgivings, she finally persuaded them to buy the necessary equipment. A kitchen cabinet, a gasoline stove, dishes and other necessary articles were purchased. The school house contained no separate room that could be used for a domestic science laboratory, so it was necessary to use one corner of the high school room. Here the pupils received their instruction and did their work.

Even under these obstacles the plan has been so successful that a marked change has taken place in the attitude of the community. The board and patrons of the school are well pleased for they see how the instruction in the school is made to fit in the home life of the pupils. The girls like the new order of things because they can now see more connection between the subjects taught in school and the work that they may reasonably expect to do in mature life.

Smile on wash day. That's when you use Red Cross Ball Blue. Clothes whiter than snow. All grocers. adv

NOTICE.

The regular monthly meeting of Class No. 2 of East End Chapel, will be held Wednesday evening at 7:30 o'clock at the home of Mrs. Compton on E. Yeoman St. All members cordially invited.

OLNEY PRAISES ADMINISTRATION BUT CAN'T HELP

By Associated Press.

washington, D. C., May 6—President Wilson today received the reply of Richard Olney declining the appointment as Governor of the Federal Reserve Board. Mr. Olney said he declined because it would be necessary for him to give his entire time to the work of the board. He had assumed duties, he said, which from their personal nature cannot be devolved upon others.

"I regret," he said, "that I am able to do so little in aid of an administration whose first year of achievement makes it the most notable the country has ever known."

BABY GIRL ADOPTED

Big land deals do not seem to be the only contracts in which Mr. T. C. Jamison, of Circleville, son of Mr. J. L. Jamison, is engaging in.

Mr. and Mrs. Jamison, who have no children of their own, on Wednesday legally adopted an eight months old baby girl and will bring it up as their own.

The baby's parents are compelled to be on the road all the time and the little one's health was suffering from the constant traveling.

It was owing to these unfortunate circumstances that the parents were induced to give her up. They have an older child, 22 months of age.

The adopted baby is a beautiful child and comes of good family and well educated people, and the mother is a musician.

Mr. and Mrs. Jamison deem themselves fortunate in securing the little one.

All the steps for legal adoption have been taken.

Mr. Jamison is over from Circleville for the day.

NEW NEWSPAPER FOR CIRCLEVILLE

Hon. Percy A. Walling has announced that on or about June 1st he will establish a new Democratic daily and weekly newspaper in Circleville.

Walling announces that he will be sole owner and editor, with no friends to reward or enemies to punish.

SILLY CLEVELANDERS

If the people of Cleveland have found that the use of Central Standard time seemed inconvenient, it would have been a very simple matter for them to change the hours of opening and closing their shops 30 minutes, and, instead of running from 8 to 5, run from 7:30 to 4:30. That would have been the honest way to meet the condition, and it has been so met successfully in many locations. Such an adaptation of the working day would have brought them almost exactly in accord with the mean solar time of the meridian of Cleveland, and would not have tended to disintegrate the general plan of uniform Standard time which has been in effect for the past 30 years. Those who are old enough to remember the inconveniences which resulted from the isolated individualism prevailing prior to 1883 will hesitate to approve any steps that have a tendency backward toward the confusion of those days.

If certain people in Cleveland and its vicinity want to get up an hour sooner than they have been rising, why in the name of common sense don't they do it without "monkeying with the hands of the clock?" as the proposed action was styled by Astronomer Royal Christie, of England. It is a libel upon the intelligence of the citizens of Cleveland to suppose that in order to persuade them to rise at, say 5 or 6 o'clock instead of 6 or 7 that they are so feeble-minded that they have to be cheated into that action by setting the hands of the clocks one hour ahead, so as to make them think they are still rising at the same hour as before. Are they of such a hidebound conservatism that they cannot rise unless the hands of the clock point to the accustomed hour?

If the gain by rising earlier was of anything like the benefit that is claimed by the advocates of the change, those advantages ought to be sufficient to induce the people to act in the matter without assailing the uniform Standard time that has been in use upon all the railways of Ohio since 1883, and in its cities and towns generally.—Official Railway Guide.

BECKER IS AGAIN ON TRIAL

By Associated Press.

New York City, May 6.—Charles Becker, once a lieutenant in the New York Police department was today placed on trial for the second time for the murder of gambler Herman Rosenthal in July, 1912. Notwithstanding that the crime was committed nearly two years ago, public interest in the case appeared hardly less acute than at the first trial when Becker and the four gunmen were found guilty. The latter died in the electric chair; Becker was granted a new trial by a Higher court.

At the outset of the proceedings today the defense attacked what it characterized as District Attorney Whitman's practice of talking to the newspapers "to the detriment of their clients." For this reason they asked for a change of venue. This the court denied and the selection of the jury was begun. By noon, 13 talismen had been called and eliminated, and one juror had been accepted by both sides.

SEVENTEENARE STILL ADRIFT

By Associated Press.

Sable Island, Newfoundland, May 6.—Captain McDonald and 13 members of the crew of the British steamer Columbian, burned at sea, were saved by the steamer Manhattan, according to a wireless message received here today.

The message reads: "Manhattan picked up one boat of Columbian. Captain and 13 members. One engineer killed and one drowned in leaving ship. Manhattan still searching for other boat."

Yesterday the Cunard liner Franconia, picked up one of the Columbian's boats containing 13 men and the body of chief steward, Matthews, so that 27 in all have been rescued alive. The boat still missing contains the first and second officers and 17 men.

STRIKE MAY BLOW OVER

By Associated Press.

Indianapolis, Ind., May 6.—There probably will be no general strike of coal miners in Ohio, as requested by the committee of Ohio miners which appeared here yesterday before the International Executive Board of the United Mine Workers of America. This statement was made by William Green, Secretary-treasurer, when shown the dispatch from Columbus, O., stating that the operators had offered to renew negotiations.

MAY ACCEPT RUN OF MINE

By Associated Press.

Columbus, O., May 6.—E. A. Cole, president of the Hocking Valley Coal Operators' Association, it was announced today, has mailed letters to both state and national officials of the United Mine Workers of America, in which he expressed the belief that if another conference is held a settlement of the wage difficulty could be reached.

He also indicated a disposition on the part of operators in the Hocking Valley district to accept a run of mine wage system.

There are between 15,000 and 20,000 miners in the Hocking Valley district.

Lord Curzon is the most imperturbable of men, but there have been times when he has quailed. George W. Smalley in his "Anglo-American Memories" tells how "at a country house party Jowett said to Lord Curzon, 'Come to my room after dinner and we will have a talk.' The master of Baliol spoke as if Curzon were still his pupil, and his pupil assented as if the old magisterial authority survived. To me he whispered, 'I have not been in such a funk since I left.'"

Musical Discord.

"He is a musician, is he not?" "No, indeed!" "But he plays in a band?" "He does."—Houston Post.

Progress.

"How is your Shakespearean club getting on?" "Splendidly. We learned two new steps last week."—Life.

PHOTO OF PENN RELAY MEET, WHERE WESTERN ATHLETES SCORED HEAVILY

The Univcersity of Pennsylvania relay races at Philadelphia were highly interesting and marked by close finishes. The illustration shows Fred Kelly of the University of Southern California winning the 120 yard hurdle race and the classy field starting in the 100 yard dash, won by Drew, also of the southern California institution. Drew is the central figure in the lower photo. Representatives of this college won four events from the pick of the world's track and field champions.

Cocoanut Bars	Dutchtown Cookies

All Priced at 12c Per Pound

Order a pound of assorted varieties
You will find them very good.

MAY NOW SEND TIRES BY PARCEL POST

Automobile tires may be sent by parcel post, and as a result of the new method of shipment, a large business is expected to result through shipment of tires by parcel post.

A letter written to the postmaster at Xenia explains the shipment of tires as follows:

"In reply to your letter of the 27th ultimo, I have to say that in measuring an automobile tire or casing which is so wrapped as to leave a clear space in the center, the outside diameter shall be taken as the length and the distance around the body of the tire, that is the mere circumference of the tubing or casing, shall be taken as the girth. For example, a tire or casing 32 inches in diameter, the tubing or casing being 3½ inches thick, would have a length of 32 inches, while its girth would be approximately 11 inches, making the length and girth combined 43 inches, and, therefore, within the limit of size prescribed for fourth class or parcel post mail.

"However, in measuring a tire or casing which is so wrapped as to form a circular-shaped solid parcel, or leave no perfectly clear space in the center, the outside diameter of the parcel shall be taken as the length, and twice its diameter and thickness as its girth.

"A. M. DOCKERY,
"Third Assistant Postmaster General".

Red Cross Ball Blue, much better, goes farther than liquid blue. Get from any grocer. adv
